METHODOLOGY

Measurable AI (<https://measurable.ai>) is the leading provider of transactional e-receipt data for the digital economy across the emerging markets. Through aggregating and anonymizing real purchase e-receipts from our proprietary consumer panel, we provide actionable and timely insights for savvy investors and corporations around the world.

DATA

The information in this report is based on data points collected from Measurable AI's proprietary consumer panel, where anonymized transactional e-receipts are aggregated to create consumer insights.

This report provides an overview of the online delivery (food + grocery) market across 6 regions: Saudi Arabia, United Arab Emirates, Qatar, Turkey, Egypt, Kuwait.

ADDITIONAL NOTES

Not every online delivery company in these markets are included in this report. When calculating company sales or order value, we adopt the amount after incentives. Unless with special notation, food and grocery deliveries combined are defined as Online Delivery in this report.

DISCLAIMER

PART I

MIDDLE EAST ONLINE DELIVERY DEMAND & CONSUMPTION OVERVIEW 2020-2024

INTRODUCTION

This report aims to provide an overview of the online delivery industry in 6 key markets in the Middle East across Saudi Arabia, United Arab Emirates, Qatar, Turkey, Egypt, Kuwait over 2020 to 2024.

With its strategic geographical location and higher consumer spending, the Middle East has emerged as a new frontier for incumbents eyeing market expansion in the online delivery industry. In the past five years, Delivery Hero remains a dominant player in most Middle Eastern markets; however, in 2024, it met with threats from new entrants. Market demand and competitive dynamics are anticipated to evolve further in the coming year. The average consumer expenditure on online food delivery in these markets has seen substantial growth, driven by the region's inflationary pressures.

SAUDI ARABIA ONLINE DELIVERY DEMAND & CONSUMPTION TREND

2020-2024

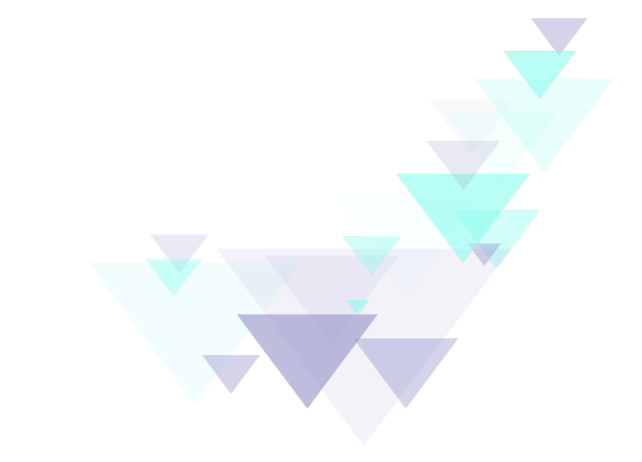

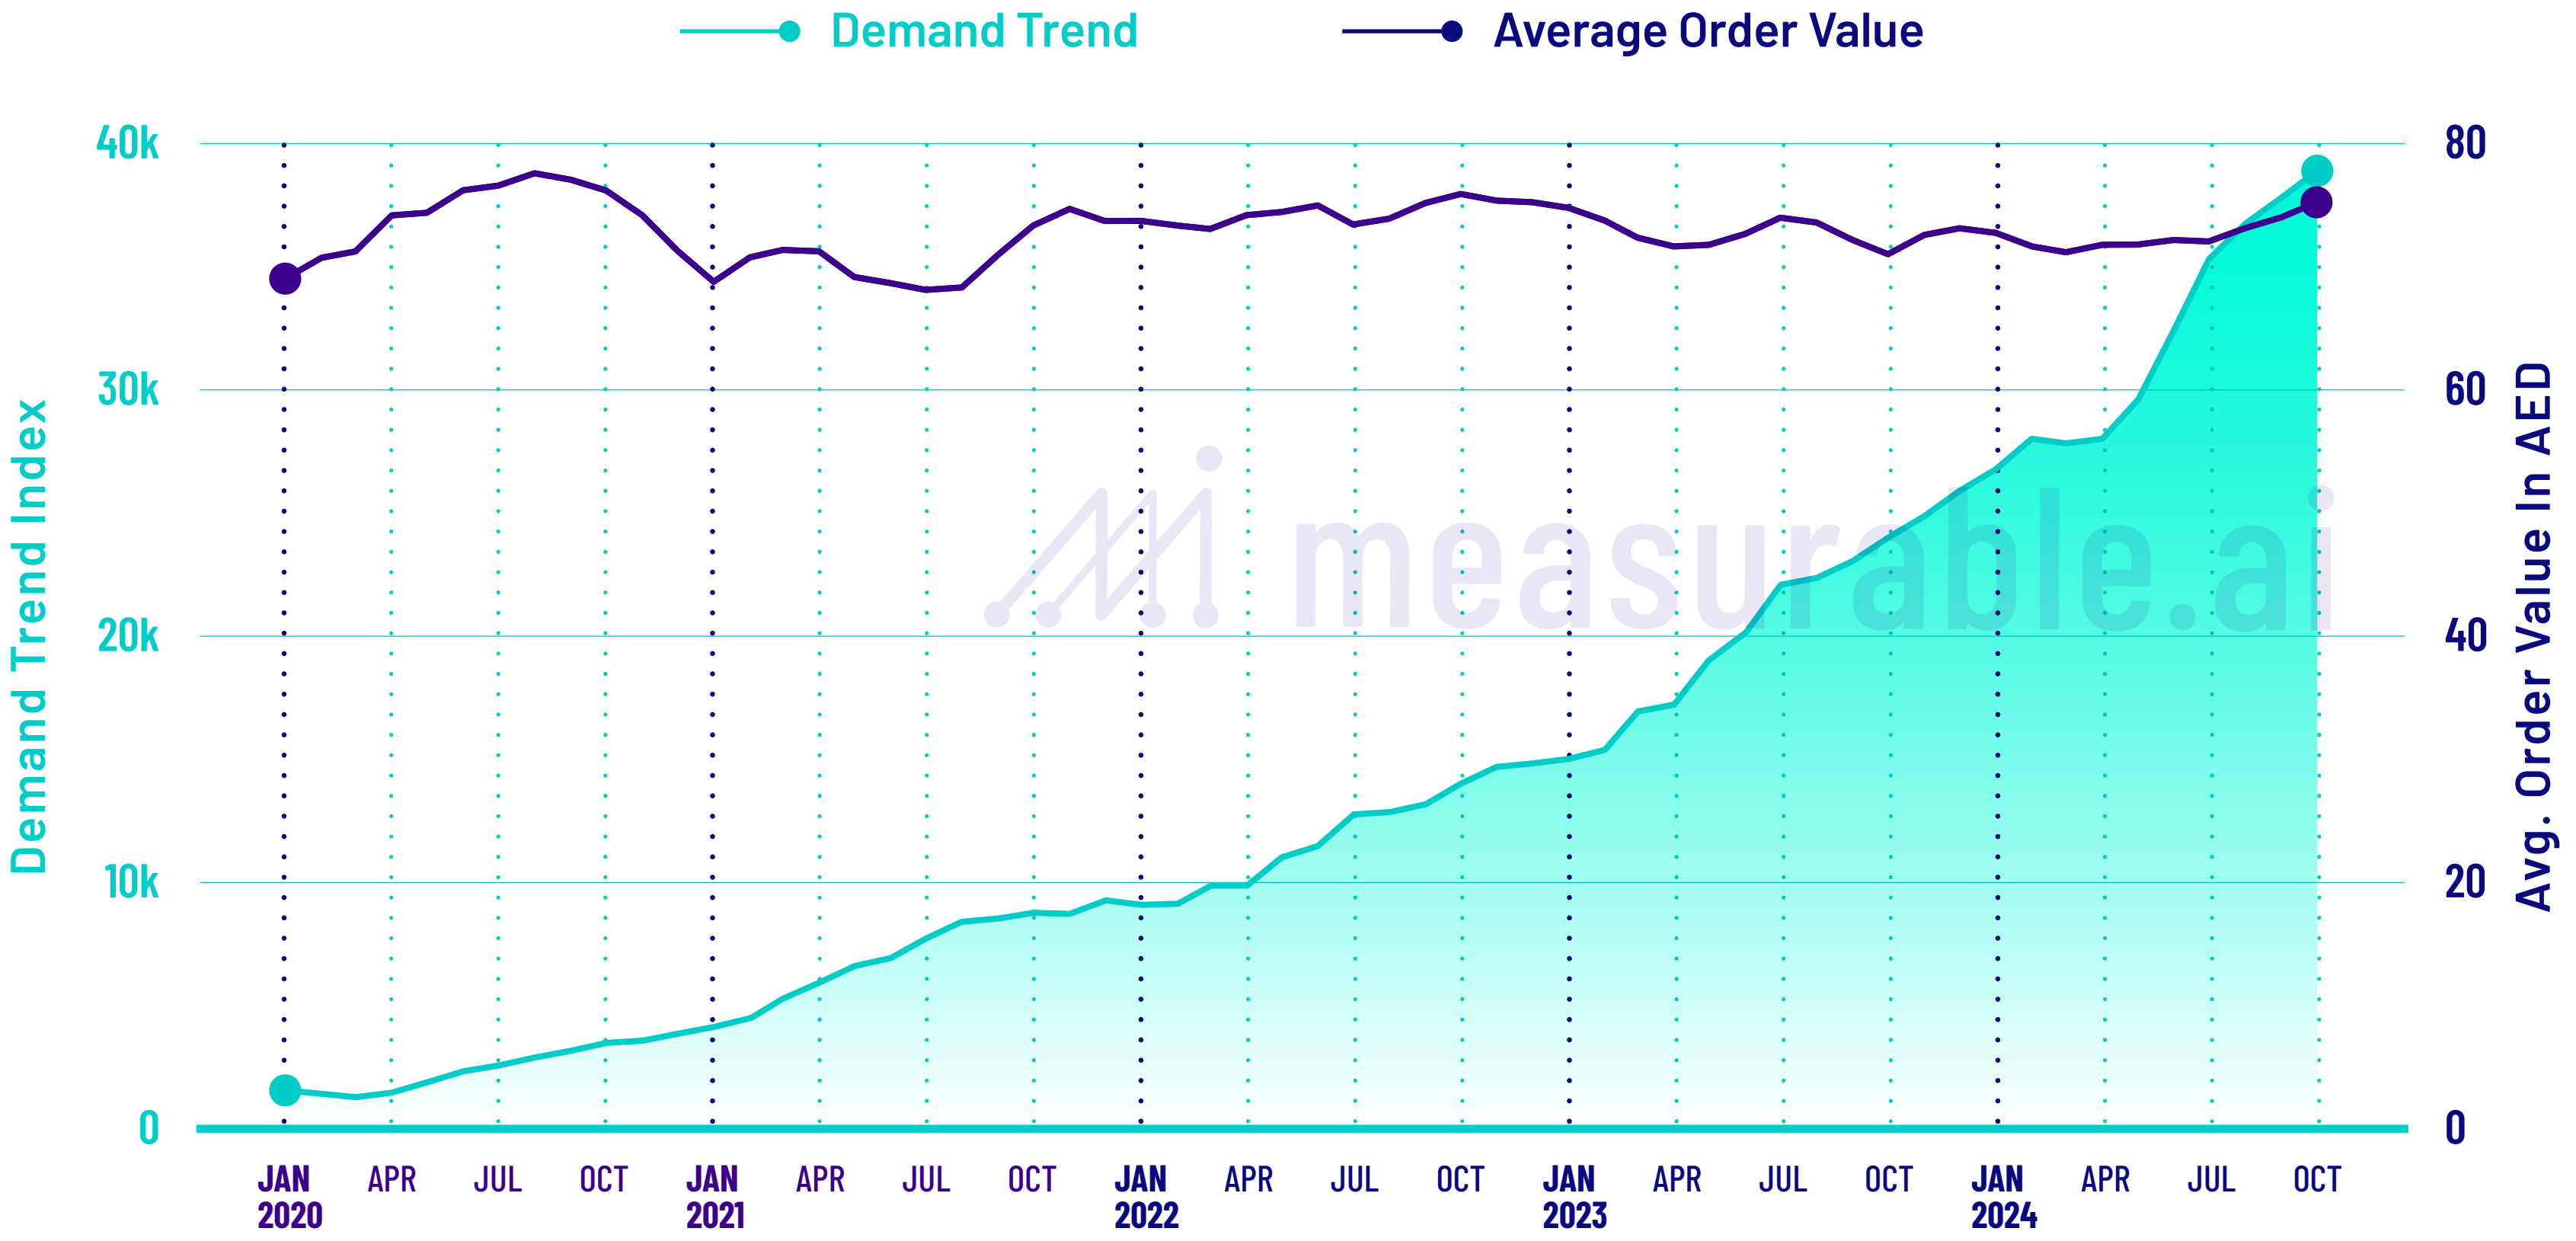

Measurable AI: Saudi Arabia Online Delivery Demand Trend *Demand Trend = Estimated order volume index, which is based on the order volume captured in Measurable AI's unique consumer panel. Online delivery orders include both food and grocery deliveries. Data range 2020 January to 2024 October. Online delivery companies included in this chart: HungerStation, Keeta, MrSool, Talabat, ToYou

Saudi Arabia's online delivery demand trend grew at a 30.67% CAGR based on order volume throughout 2020 to 2024. Users' Average Order Value (before incentives) on online delivery has fluctuated quite a bit in the past five years, it kept growing from around 86 SAR in 2020 to over 91 SAR in 2022, but then dropped around 85 SAR where it was five years ago in 2024, due to increased competition from new market entrants.

UAE ONLINE DELIVERY DEMAND & CONSUMPTION TREND

2020-2024

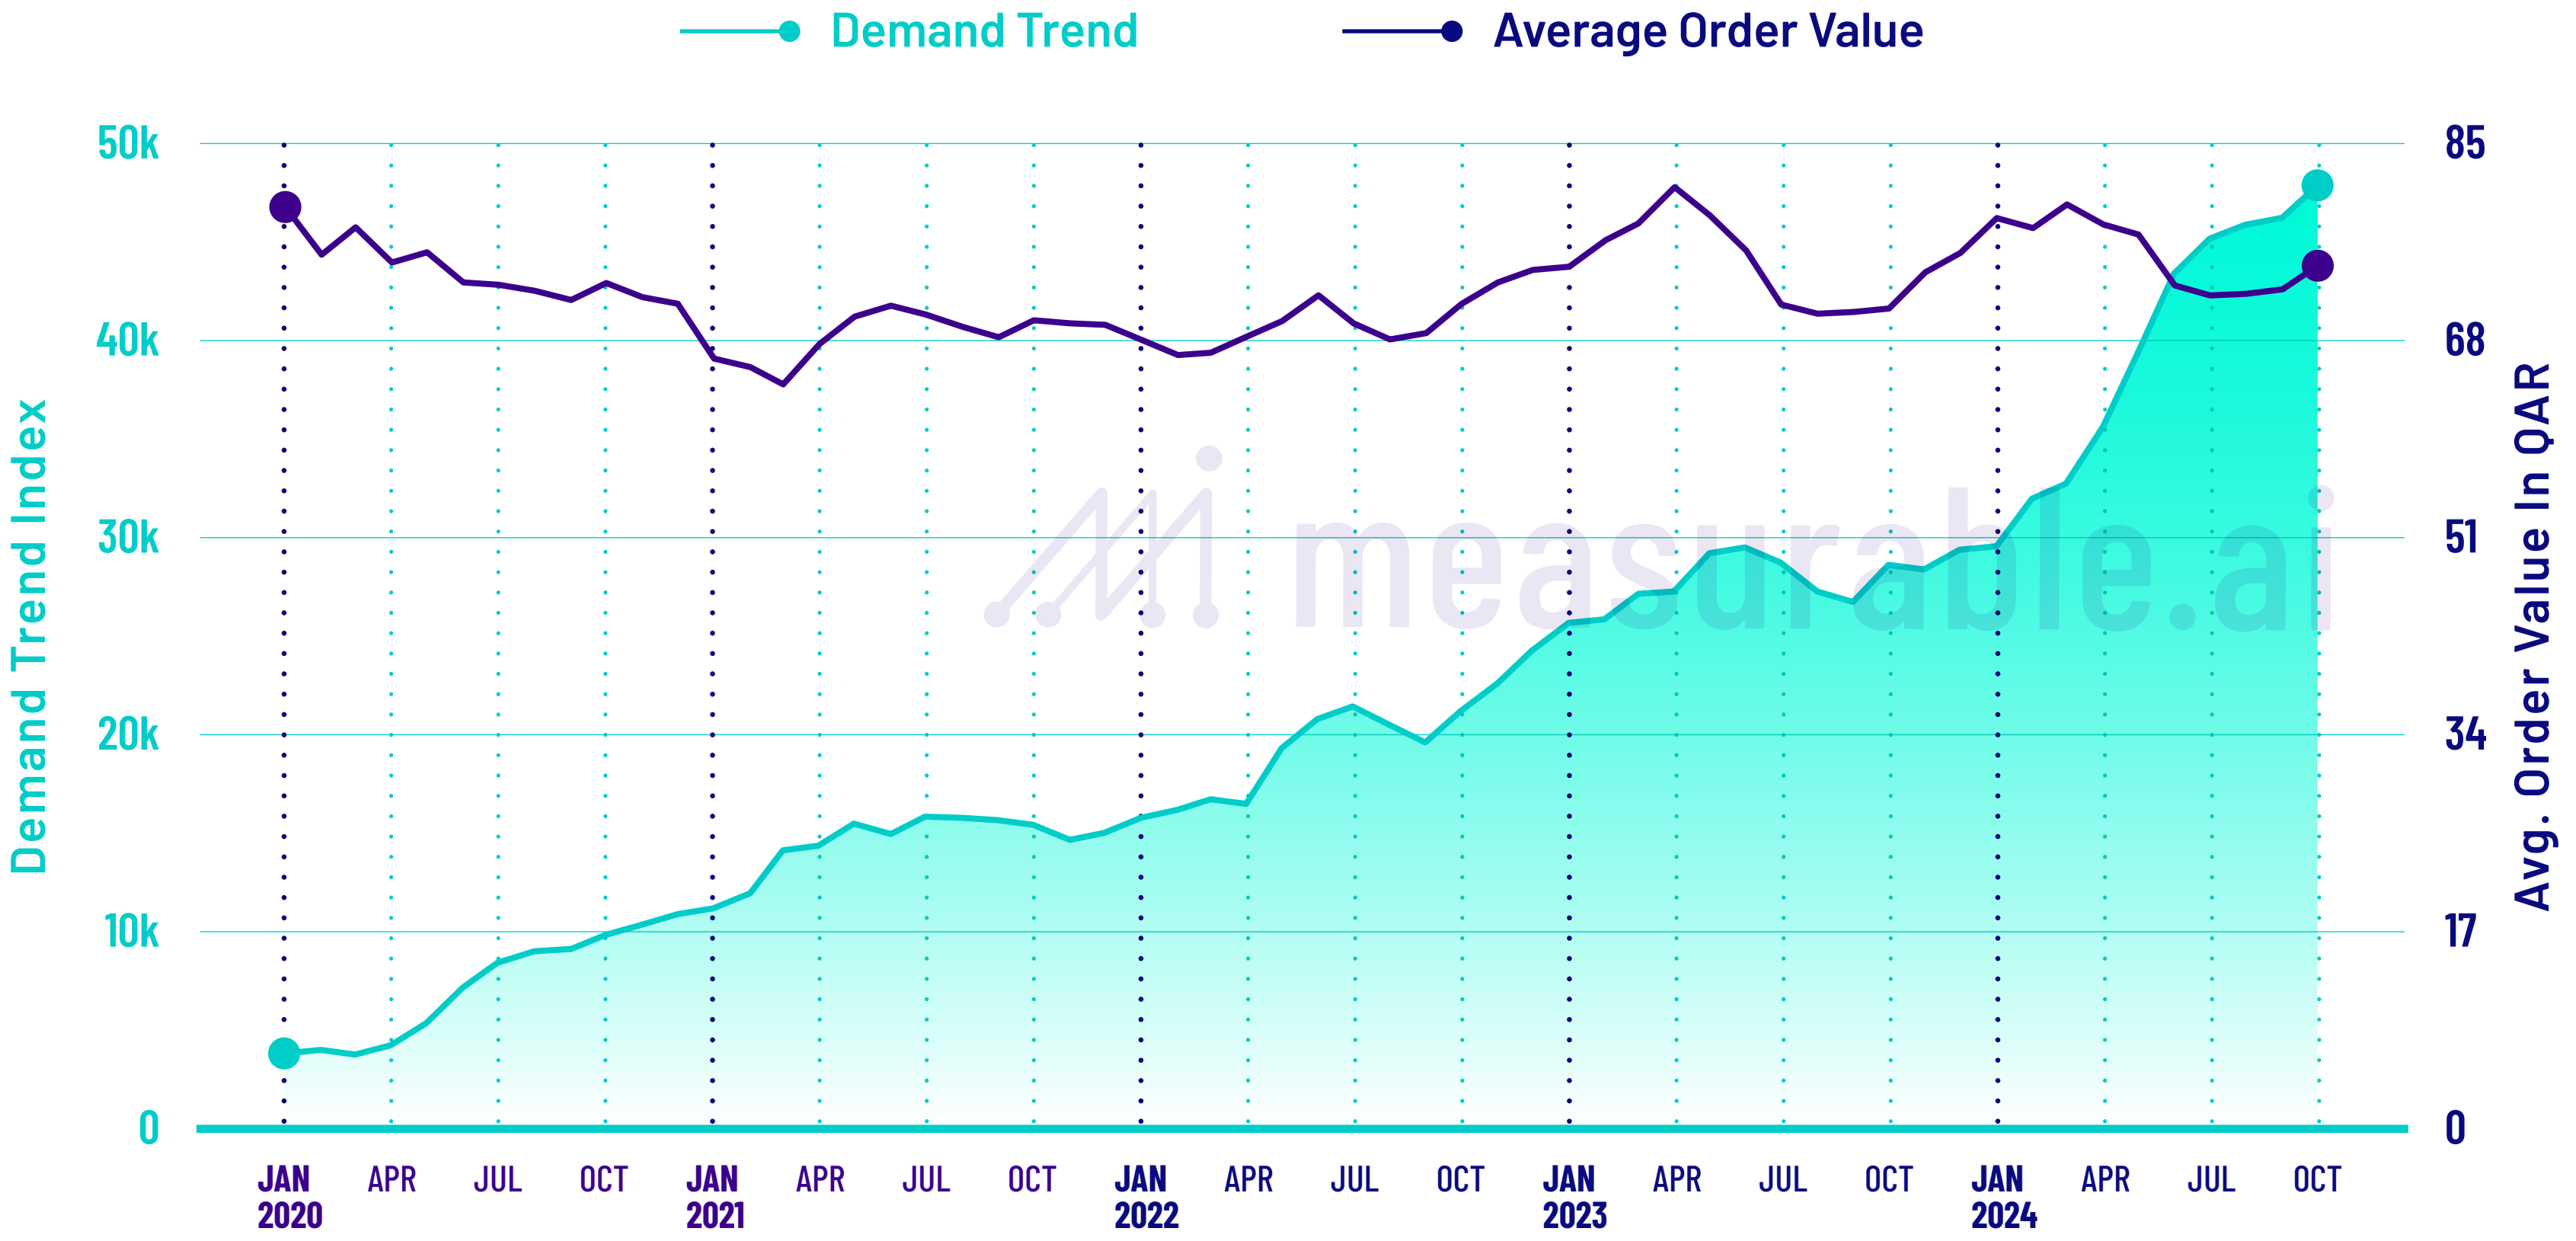

The online delivery market in the UAE has experienced rapid expansion, boasting a remarkable 62.52% CAGR, making it one of the fastest-growing markets in the Middle East. The growth particularly surged post-pandemic, with an impressive 74% YOY growth rate from 2022 to 2023. Meanwhile, the Average Order Value (before incentives) among UAE users has remained stable, typically ranging between 70 to 75 AED.

Measurable AI: United Arab Emirates Online Delivery Demand Trend *Demand Trend = Estimated order volume index, which is based on the order volume captured in Measurable AI's unique consumer panel. Online delivery orders include both food and grocery deliveries. Data range 2020 January to 2024 October. Online delivery companies included in this chart: CareemNow, Deliveroo, Smiles, Talabat

QATAR ONLINE DELIVERY DEMAND & CONSUMPTION TREND

2020-2024

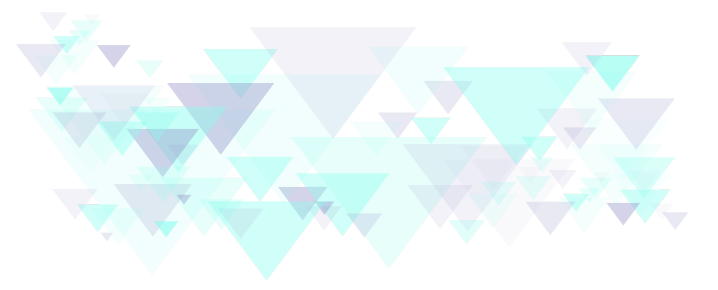

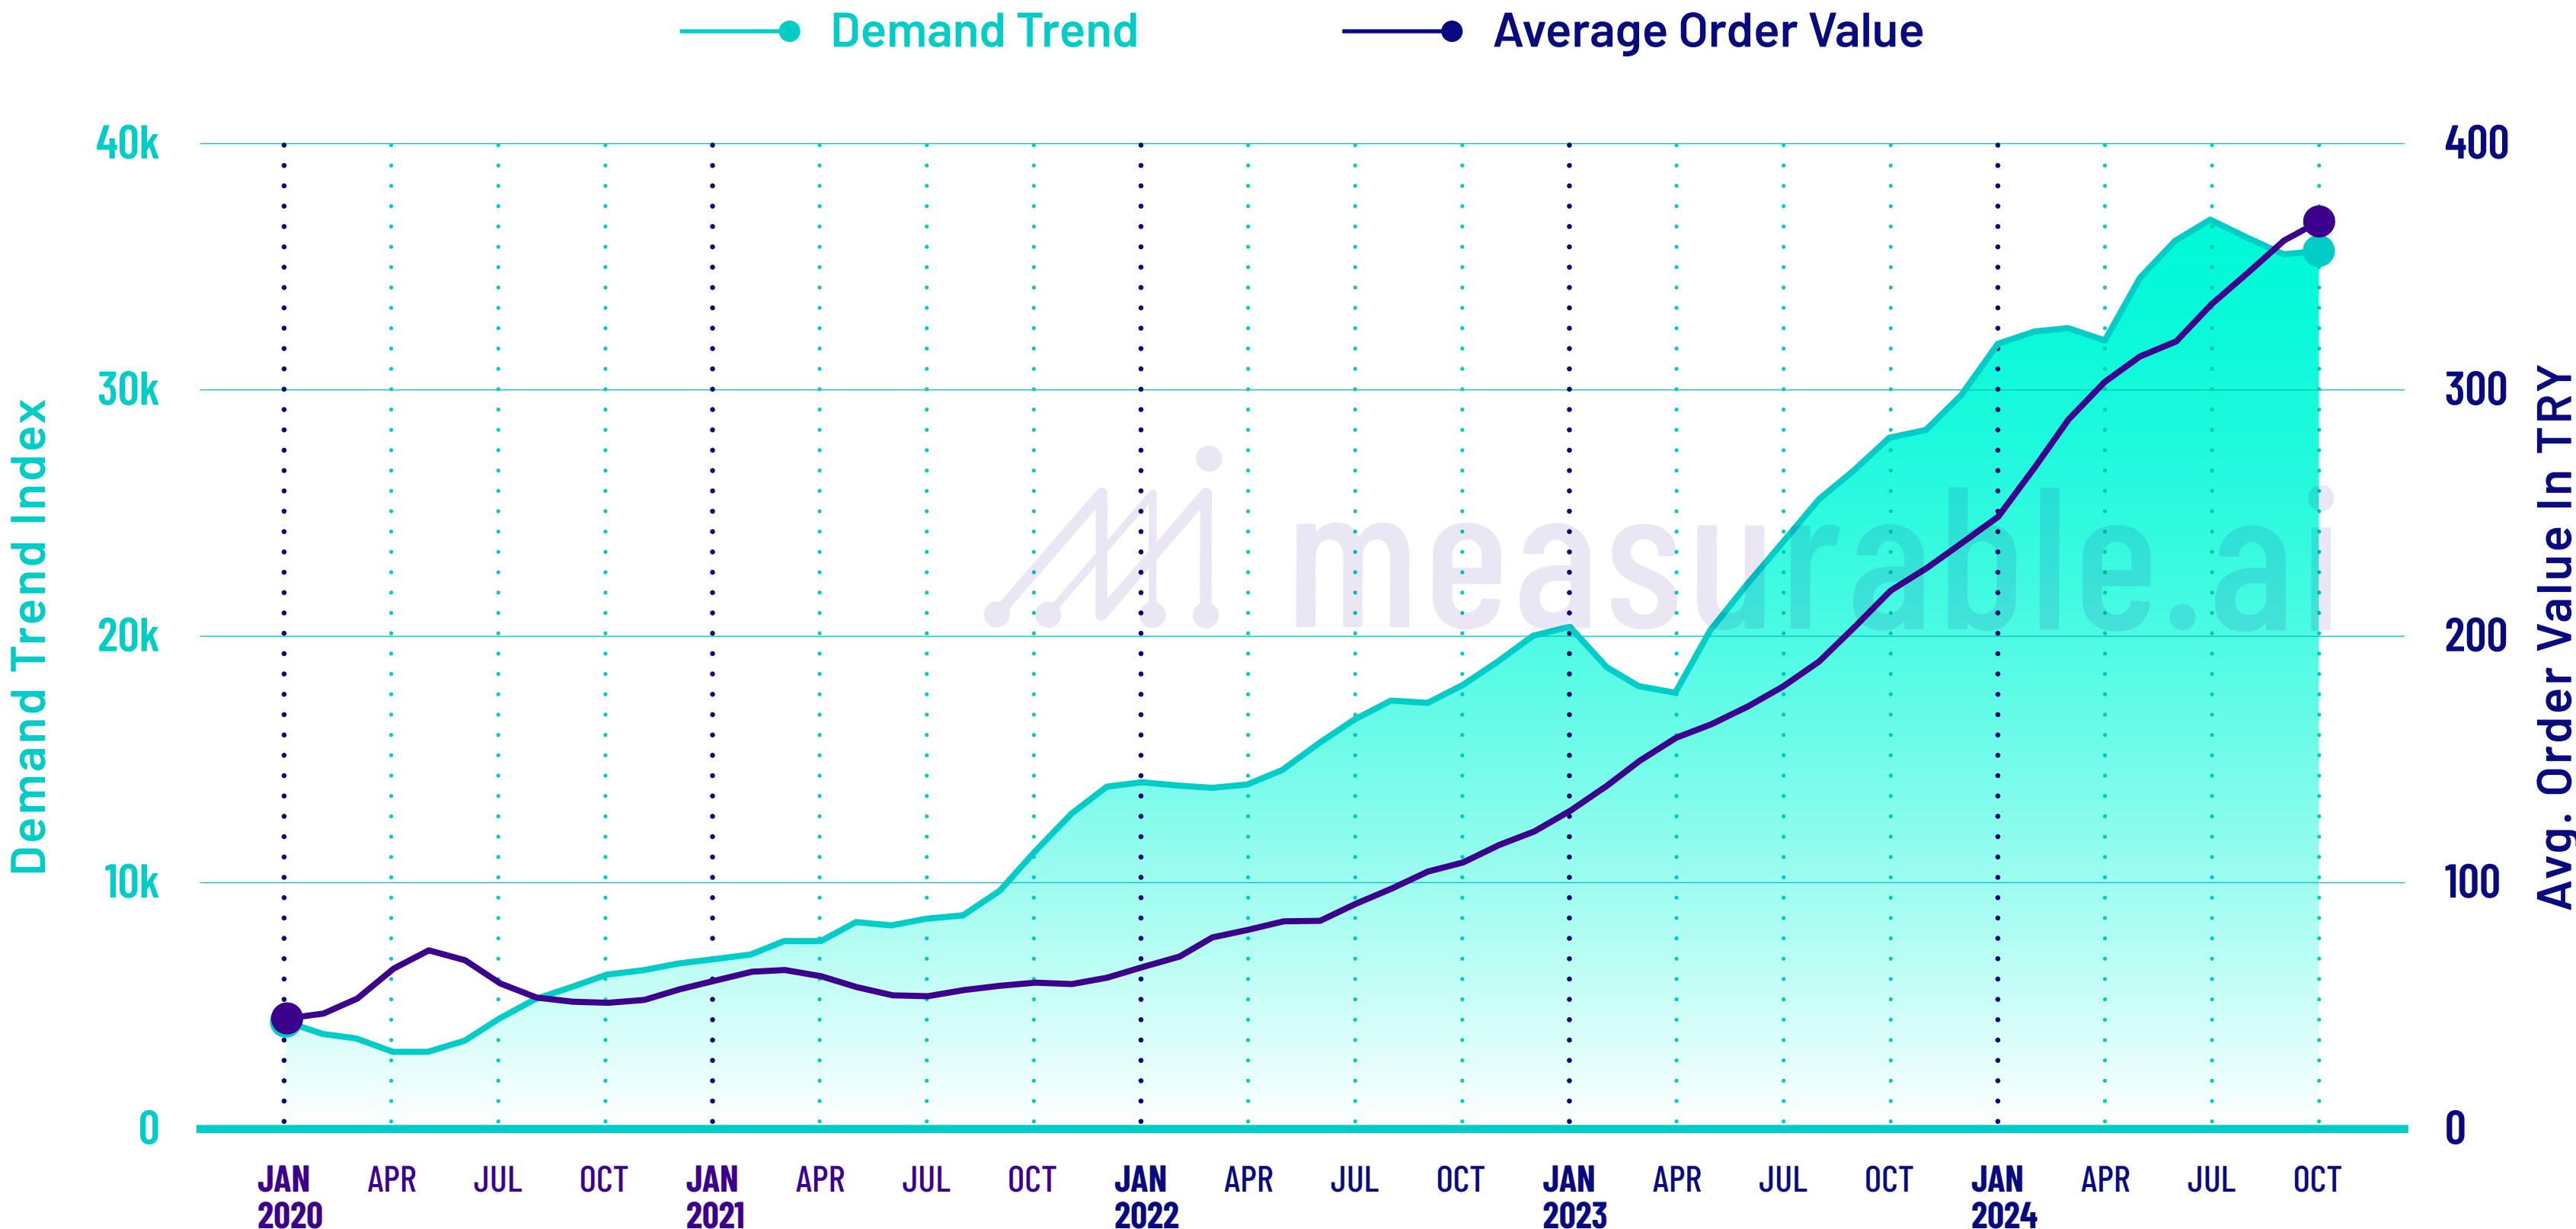

Qatar's market demand trend showed a steady growth since 2020, with 36.5% CAGR growth over the 5 years of course. In line with this demand surge, the Average Order Value (AOV) in Qatar has also seen an uptrend, typically hovering between 70 and 75 QAR, indicating a stable spending pattern among consumers in the region.

Measurable AI: Qatar Online Delivery Demand Trend *Demand Trend = Estimated order volume index, which is based on the order volume captured in Measurable AI's unique consumer panel. Online delivery orders include both food and grocery deliveries. Data range 2020 January to 2024 October. Online delivery companies included in this chart: Deliveroo, Talabat

TURKEY ONLINE DELIVERY DEMAND & CONSUMPTION TREND

2020-2024

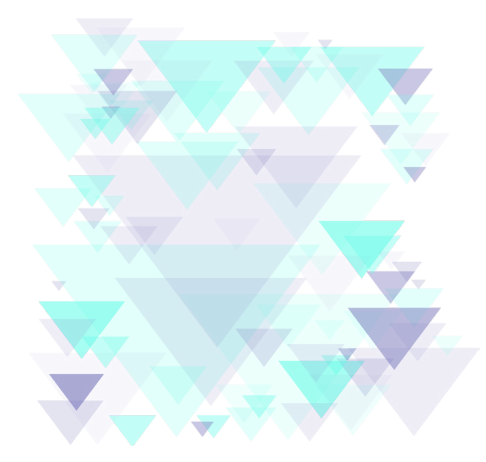

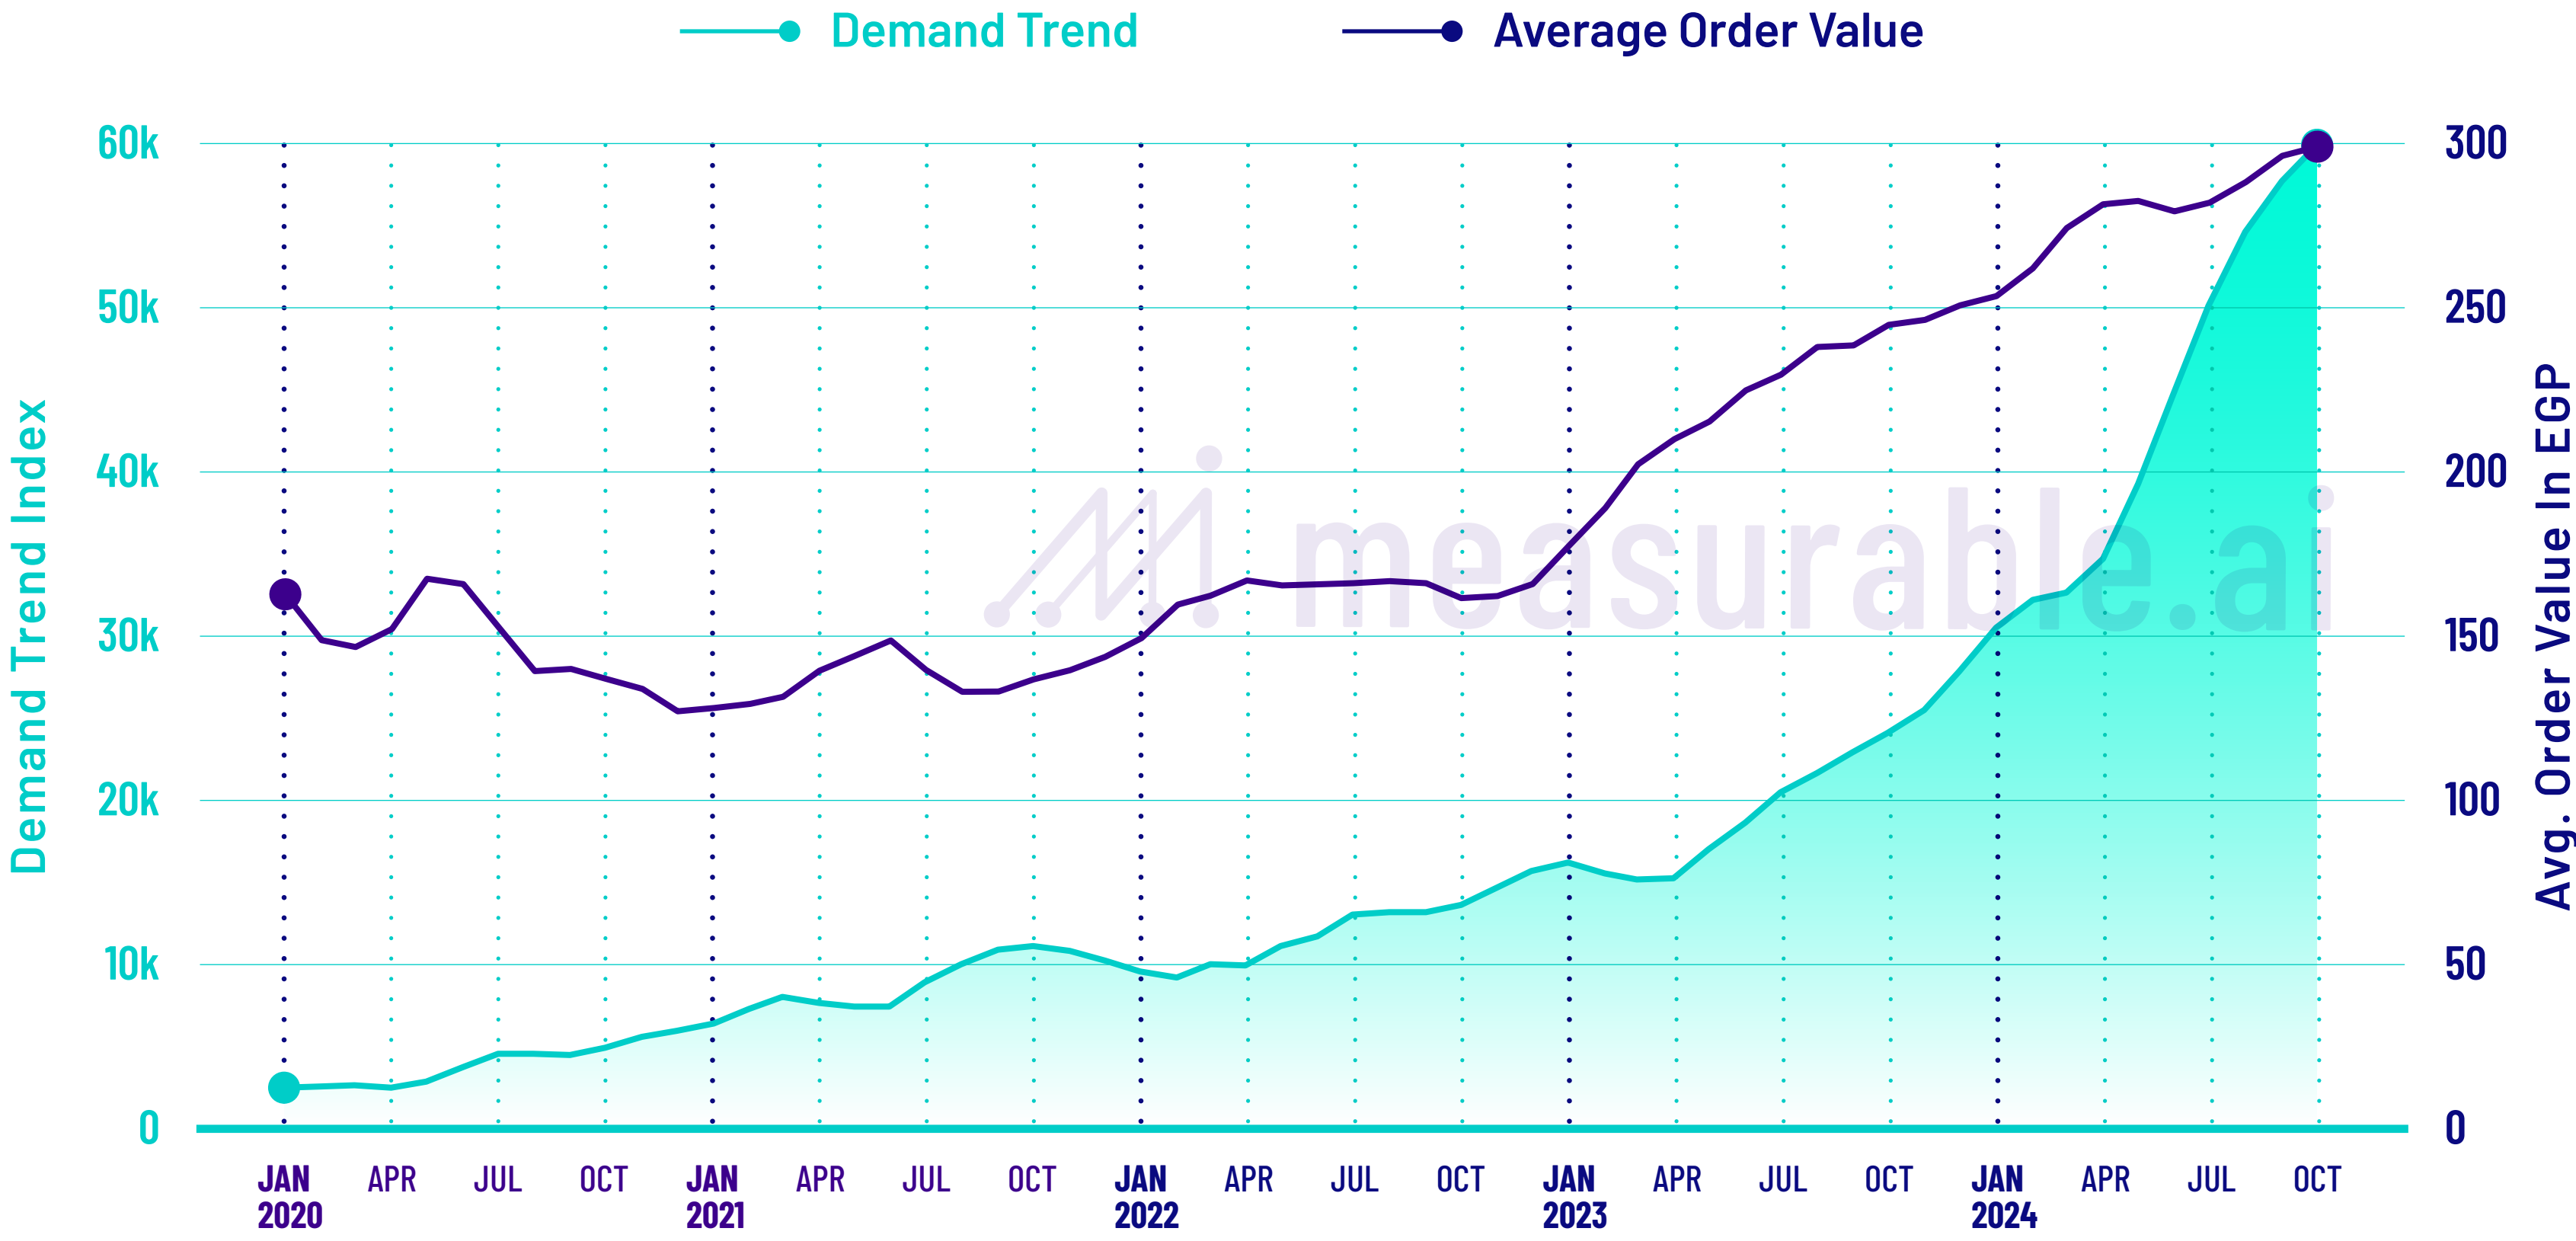

Turkey's online delivery market has experienced robust growth, with a 44.21% CAGR over the past five years. Concurrently, the Average Order Value (AOV) has risen significantly alongside inflation, increasing from around 60 TRY in 2021 to over 300 TRY.

Measurable AI: Turkey Online Delivery Demand Trend *Demand Trend = Estimated order volume index, which is based on the order volume captured in Measurable AI's unique consumer panel. Online delivery orders include both food and grocery deliveries. Data range 2020 January to 2024 October. Online delivery companies included in this chart: Yemeksepeti, Trendyol, Migros

EGYPT ONLINE DELIVERY DEMAND & CONSUMPTION TREND

2020-2024

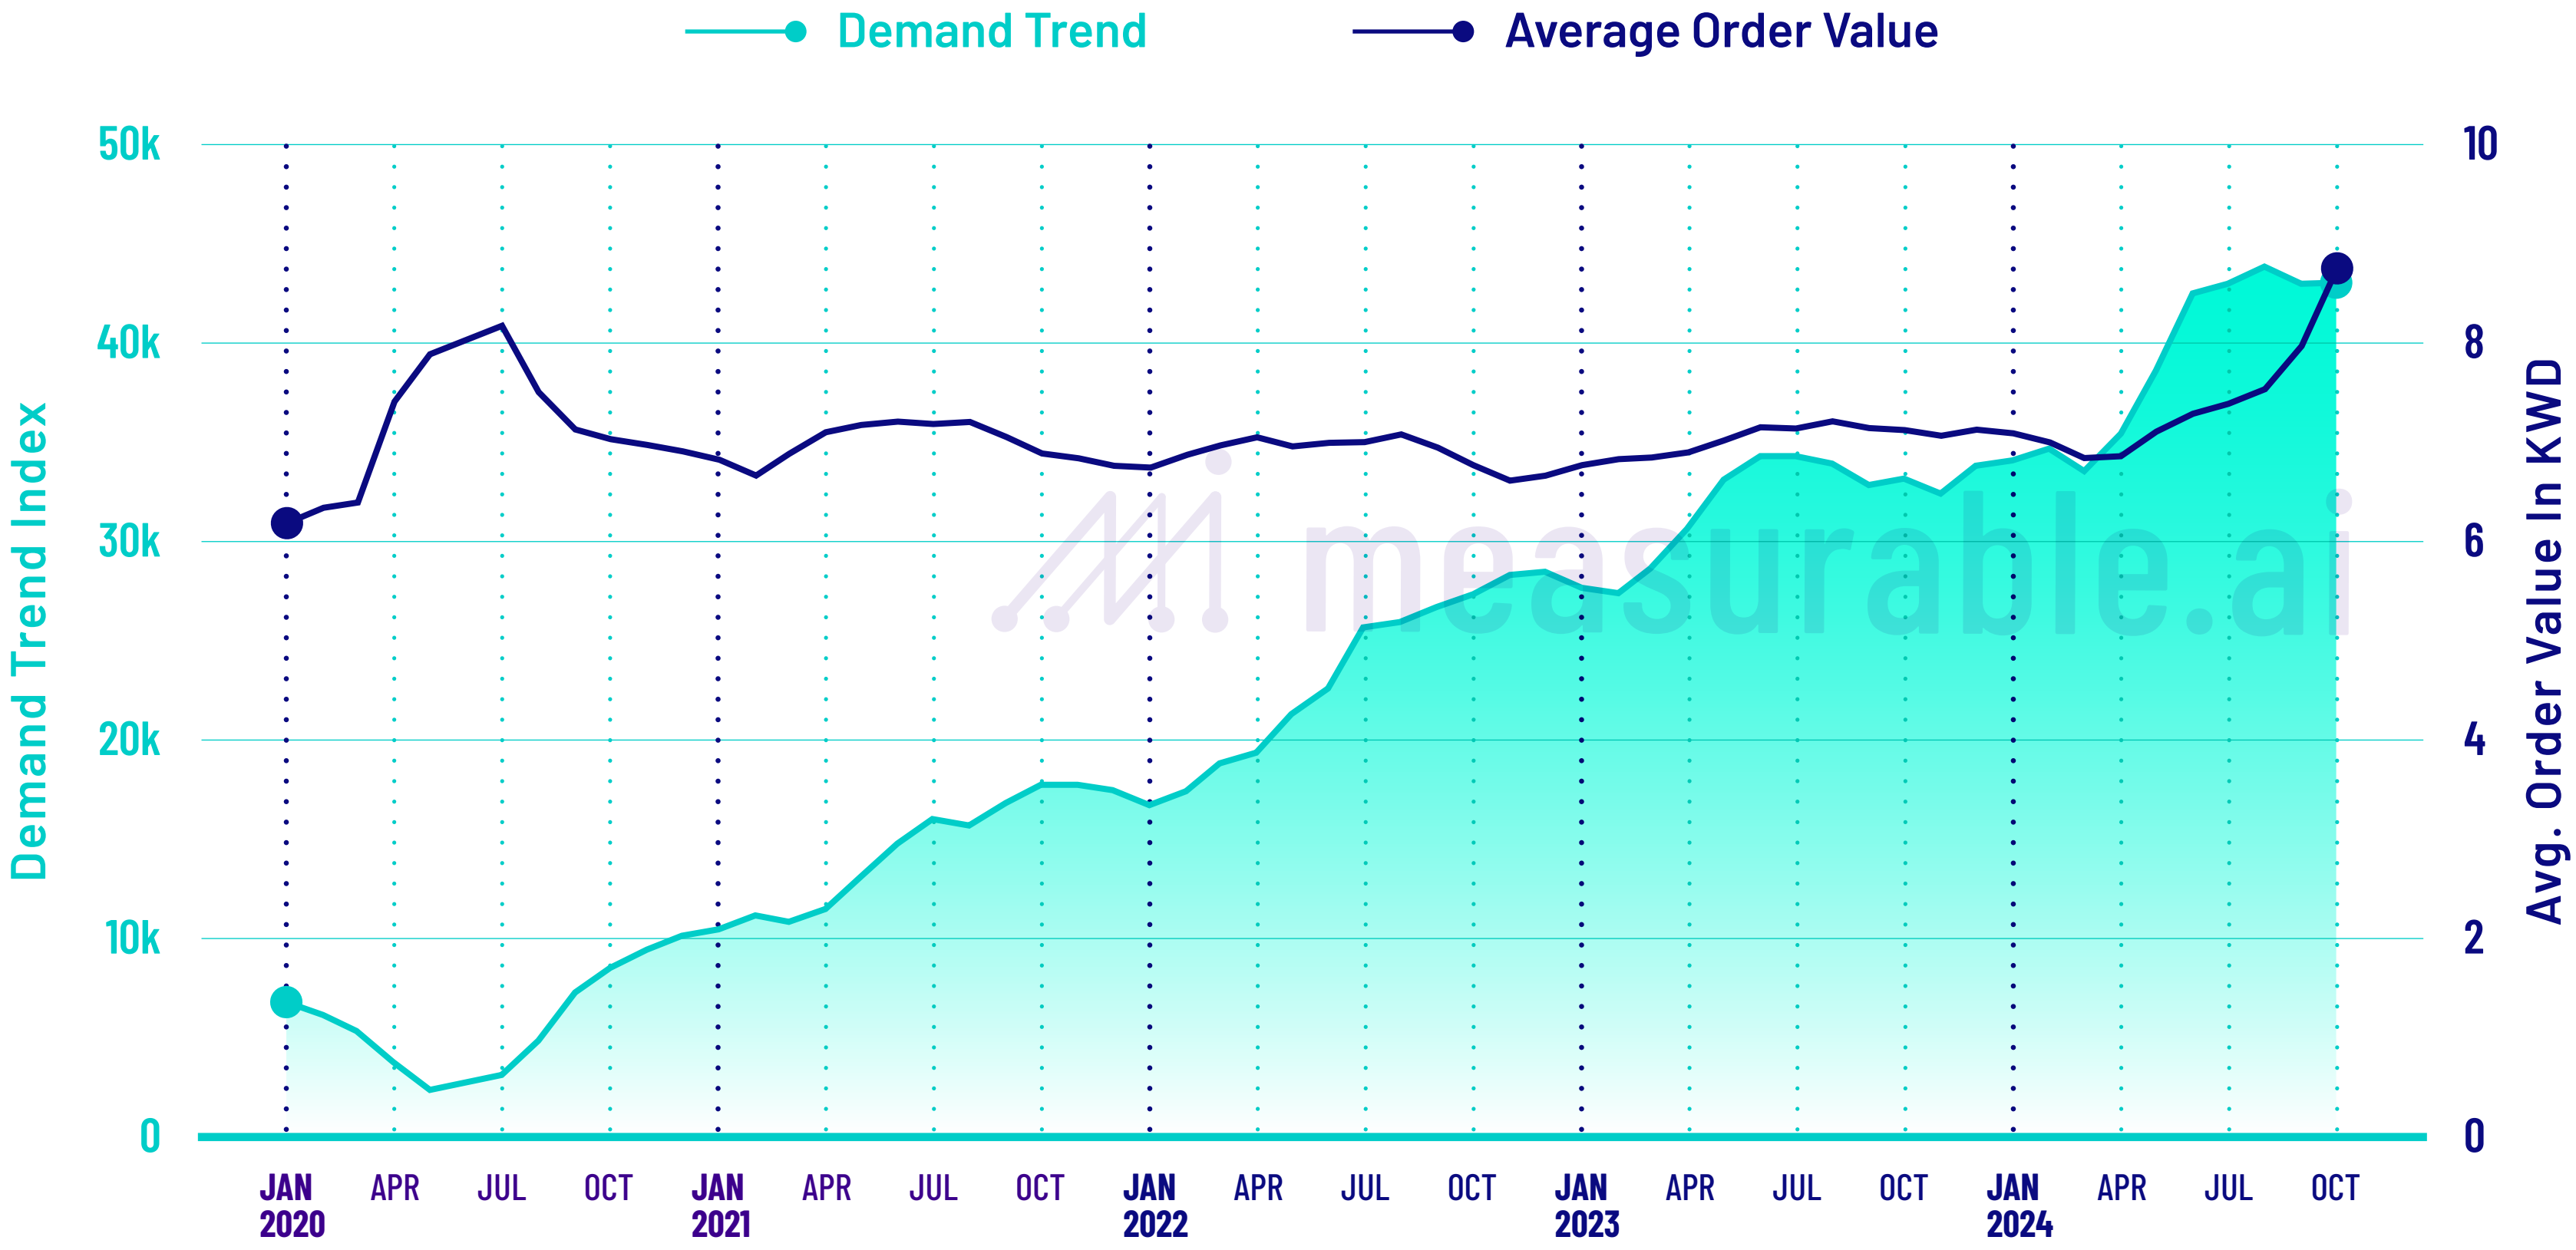

Egypt's online delivery market has experienced significant growth, with a CAGR of 58.53% from 2020 to 2024. Amid high inflation, the Average Order Value (AOV) for Egyptian users surged from around 140 EGP in 2020-2021 to nearly 287 EGP.

Measurable AI: Egypt Online Delivery Demand Trend *Demand Trend = Estimated order volume index, which is based on the order volume captured in Measurable AI's unique consumer panel. Online delivery orders include both food and grocery deliveries. Data range 2020 January to 2024 October. Online delivery companies included in this chart: Migros, Talabat

KUWAIT ONLINE DELIVERY DEMAND & CONSUMPTION TREND

2020-2024

Market demand in the Kuwait online delivery grew at a 41.06% CAGR based on order volume throughout 2020 to 3Q 2024. Users' Average Order Value (before incentives) on online delivery has grown from around 7 KWD in 2020 to over 7.6 KWD in 2024, which remains relatively high.

Measurable AI:Kuwait Online Delivery Demand Trend *Demand Trend = Estimated order volume index, which is based on the order volume captured in Measurable AI's unique consumer panel. Online delivery orders include both food and grocery deliveries. Data range 2020 January to 2024 October. Online delivery companies included in this chart: Deliveroo, Talabat

PART II

MIDDLE EAST ONLINE DELIVERY MARKET INCENTIVE TREND OVERVIEW 2024

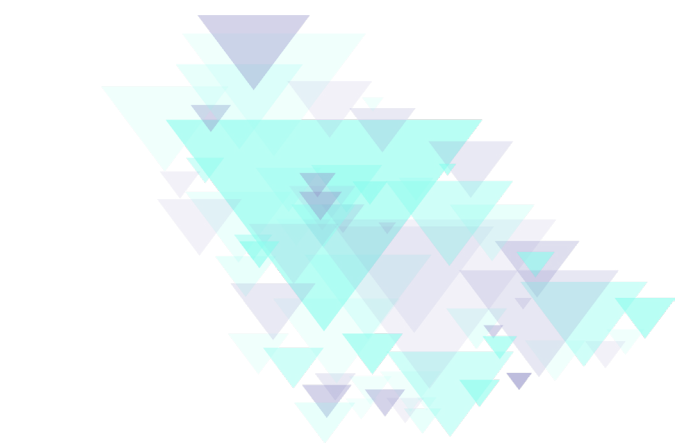

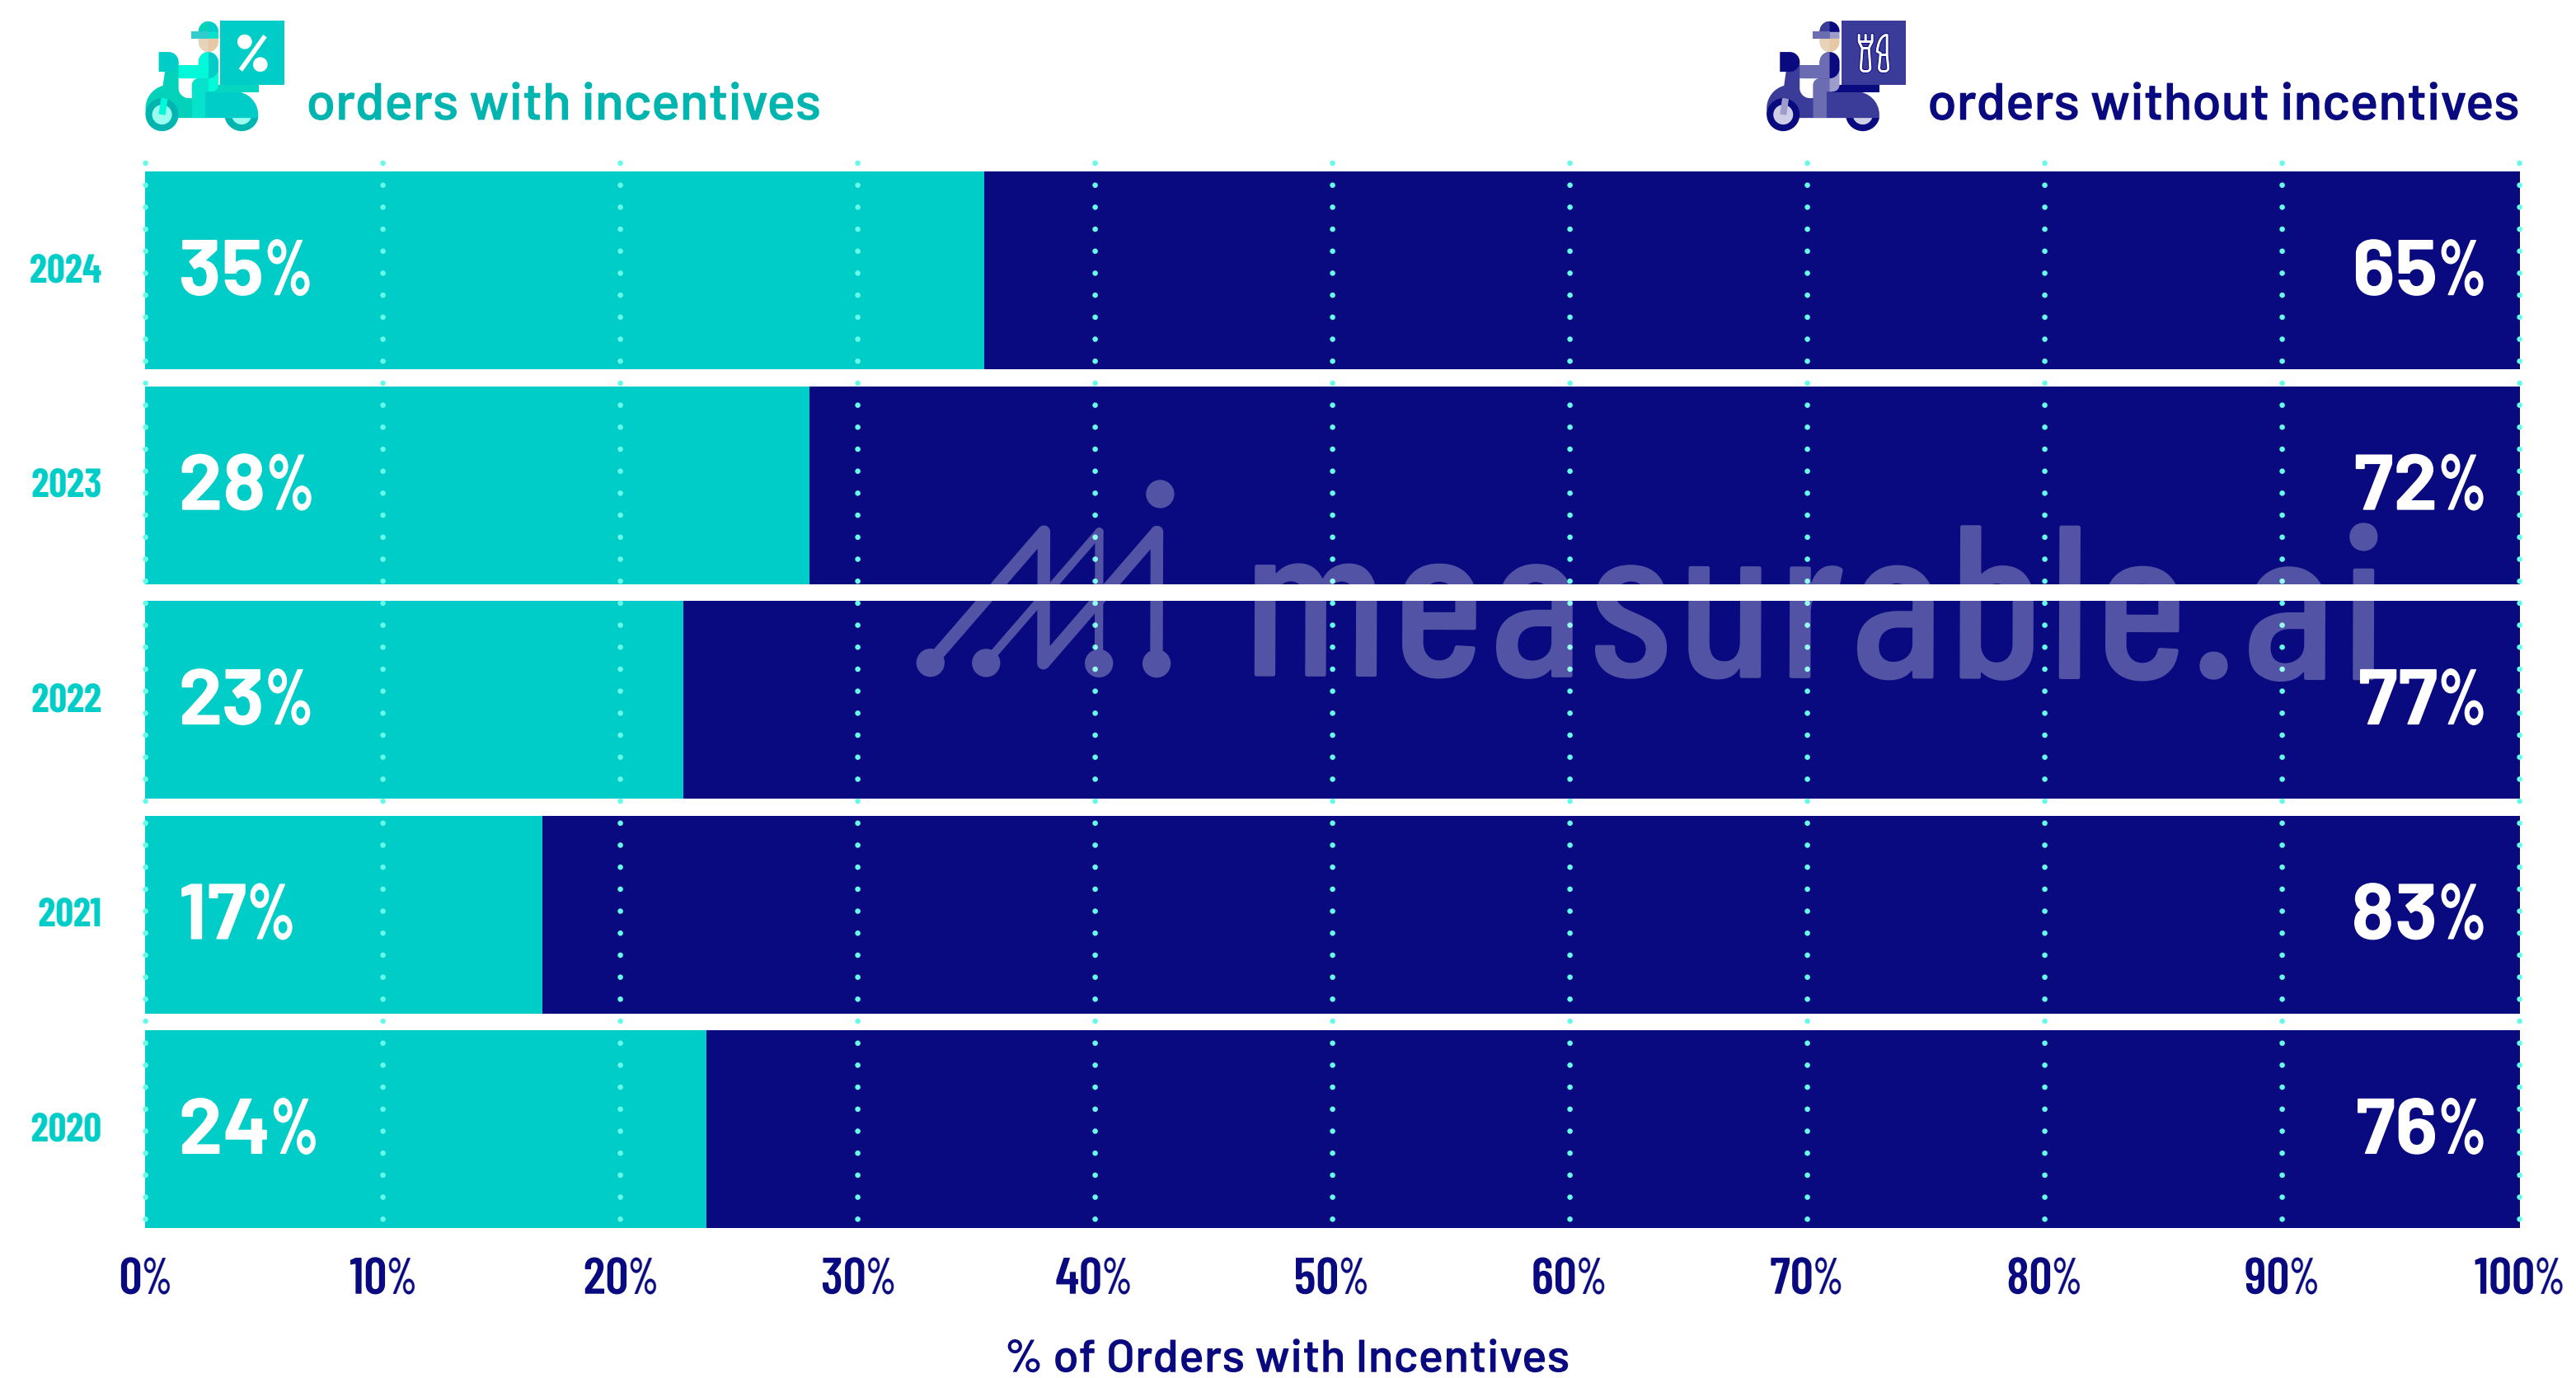

INTRODUCTION

After years of intense competition, major players in the Middle East's online food delivery market are observing varied trends in incentive rates across different countries. In markets such as Saudi Arabia and Turkey, incentive rates have been on the rise due to escalating competition. Conversely, in other Middle Eastern markets, incentive rates have remained relatively stable, likely influenced by higher consumer spending and greater Average Order Value (AOV) compared to other emerging markets we monitor.

SAUDI ARABIA ONLINE DELIVERY MARKET INCENTIVE TREND OVERVIEW

2020 2024

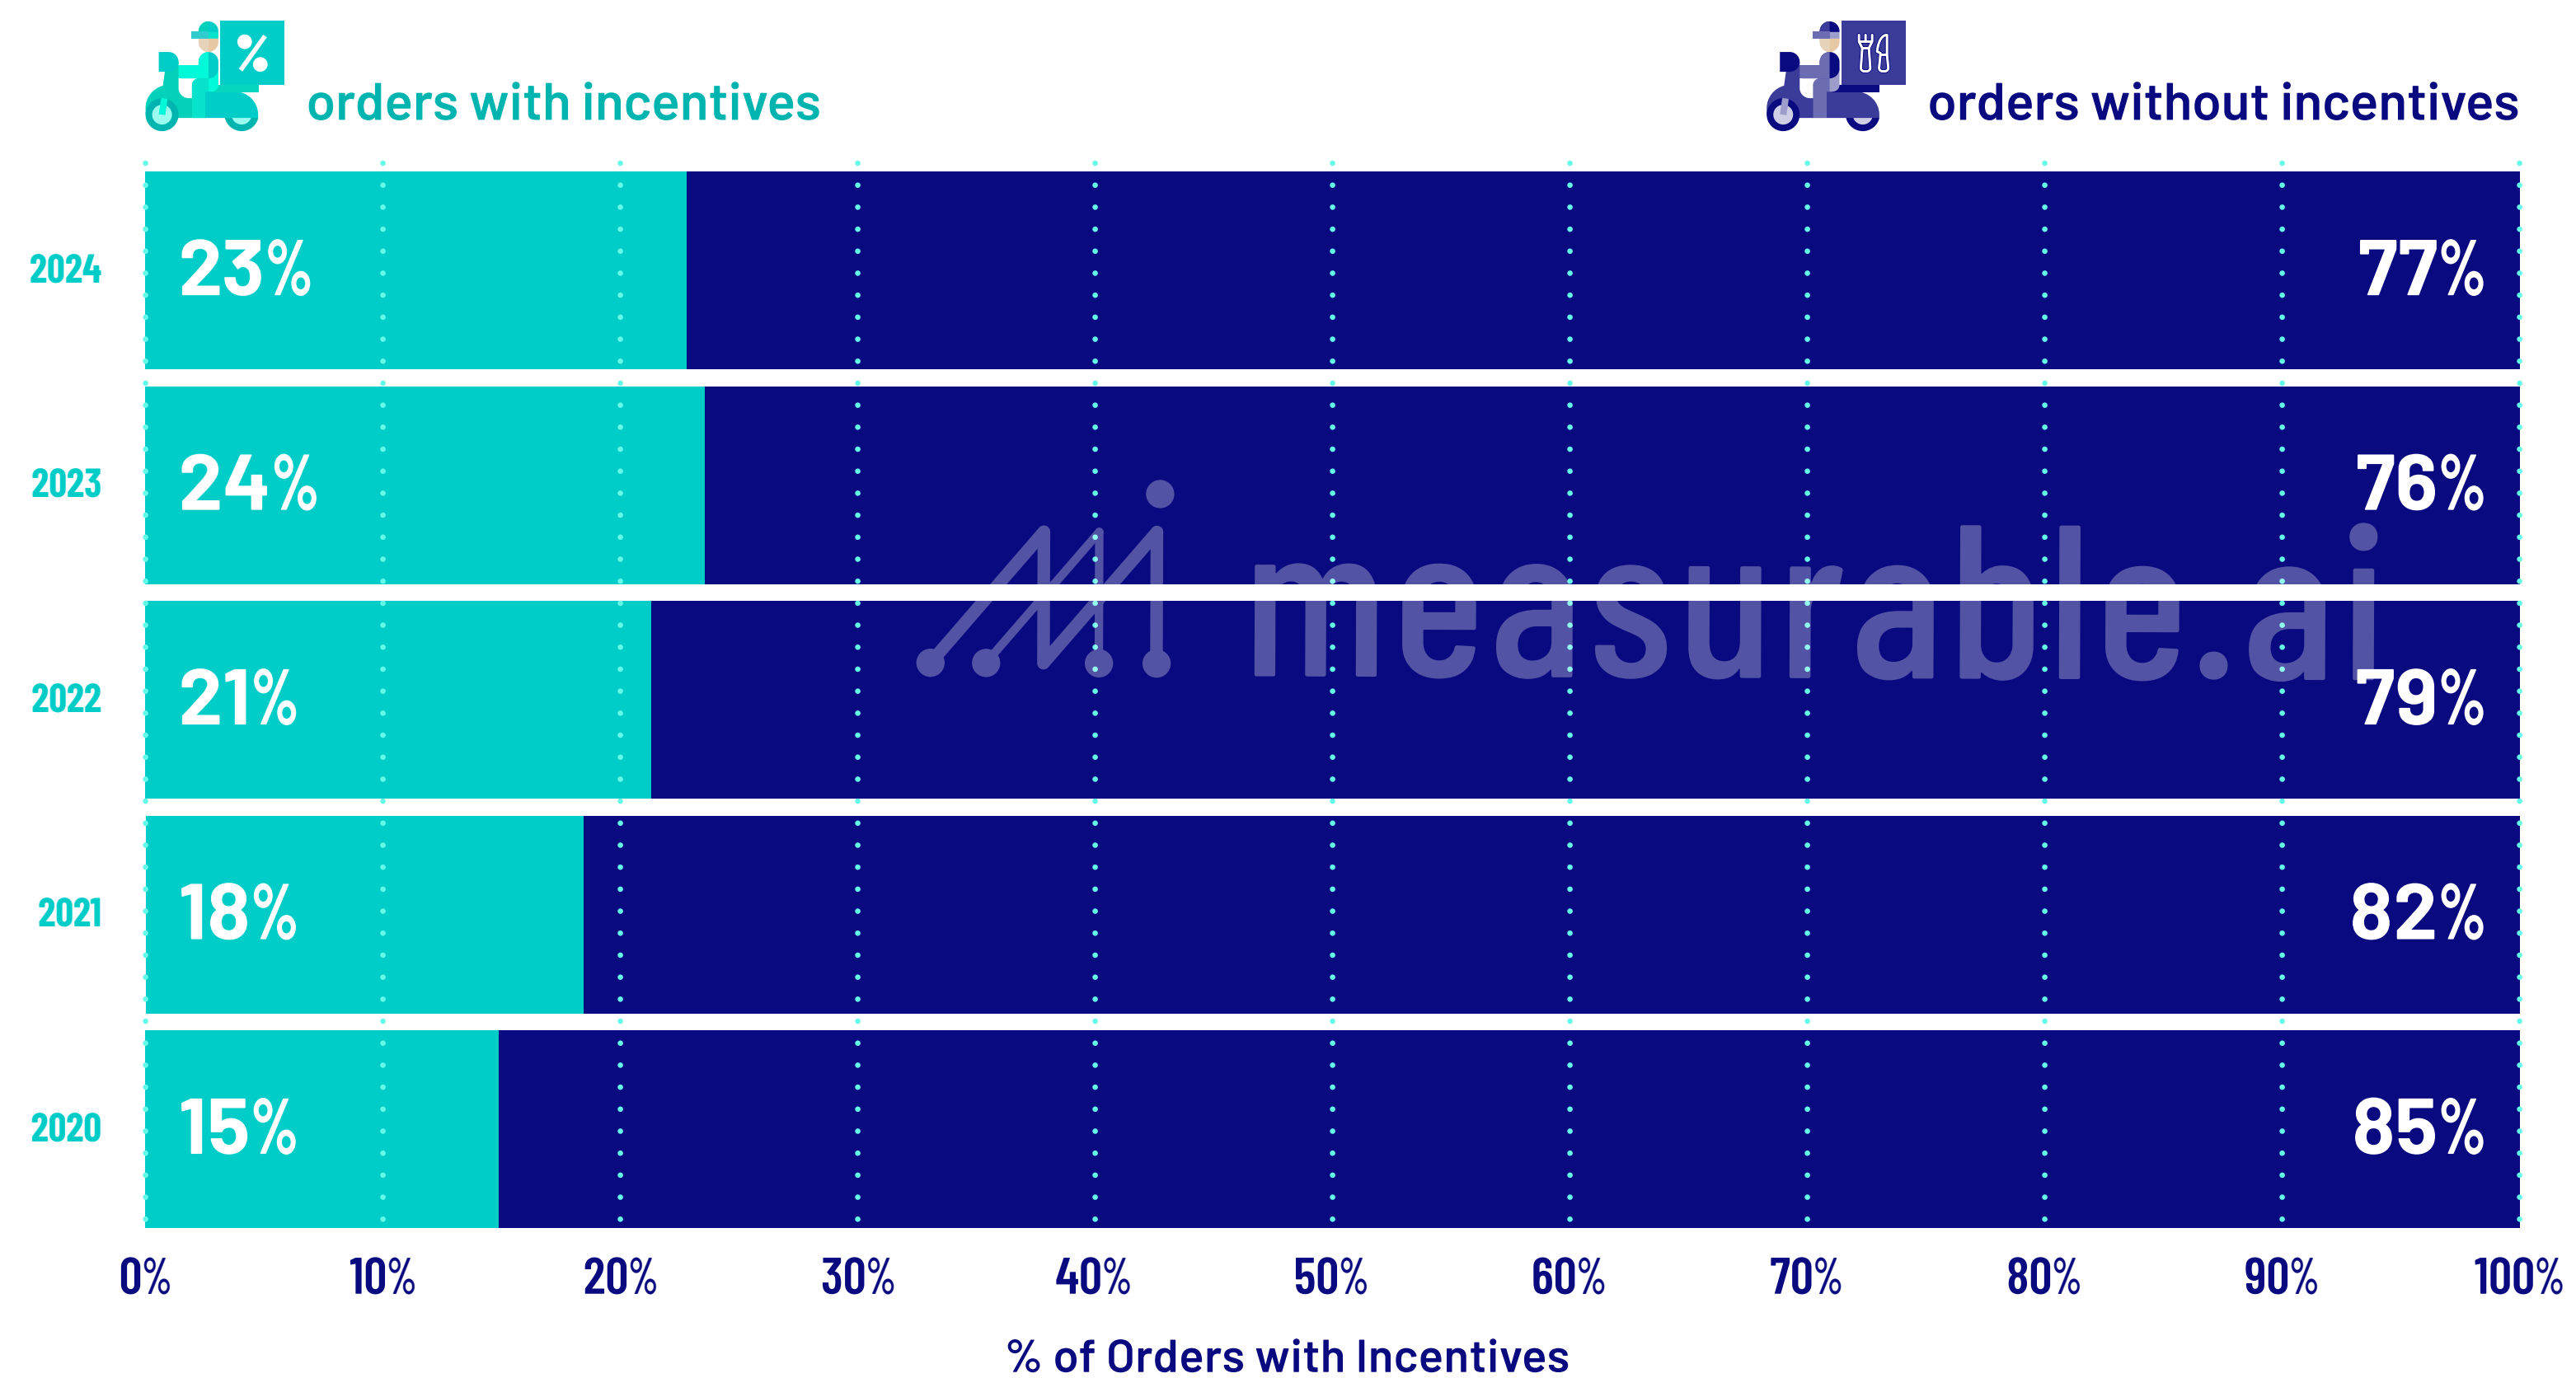

In Saudi Arabia, the incentive rate for online delivery orders has seen significant growth, reflecting the intensely competitive environment in recent years. In 2020, approximately 24% of online delivery orders included promotions; by the third quarter of 2024, this figure had increased to around 35%.

Measurable AI: Saudi Arabia Online Food Delivery Incentive Trend *Incentive Trend = Estimated orders come with at least one type of promotions including coupons, credits, discounts, which is based on the orders captured in Measurable AI's unique consumer panel. Data range 2020 January to 2024 October. Online delivery companies included in this chart: HungerStation, Keeta, MrSool, Talabat, ToYou

UAE ONLINE DELIVERY MARKET INCENTIVE TREND OVERVIEW

2020 2024

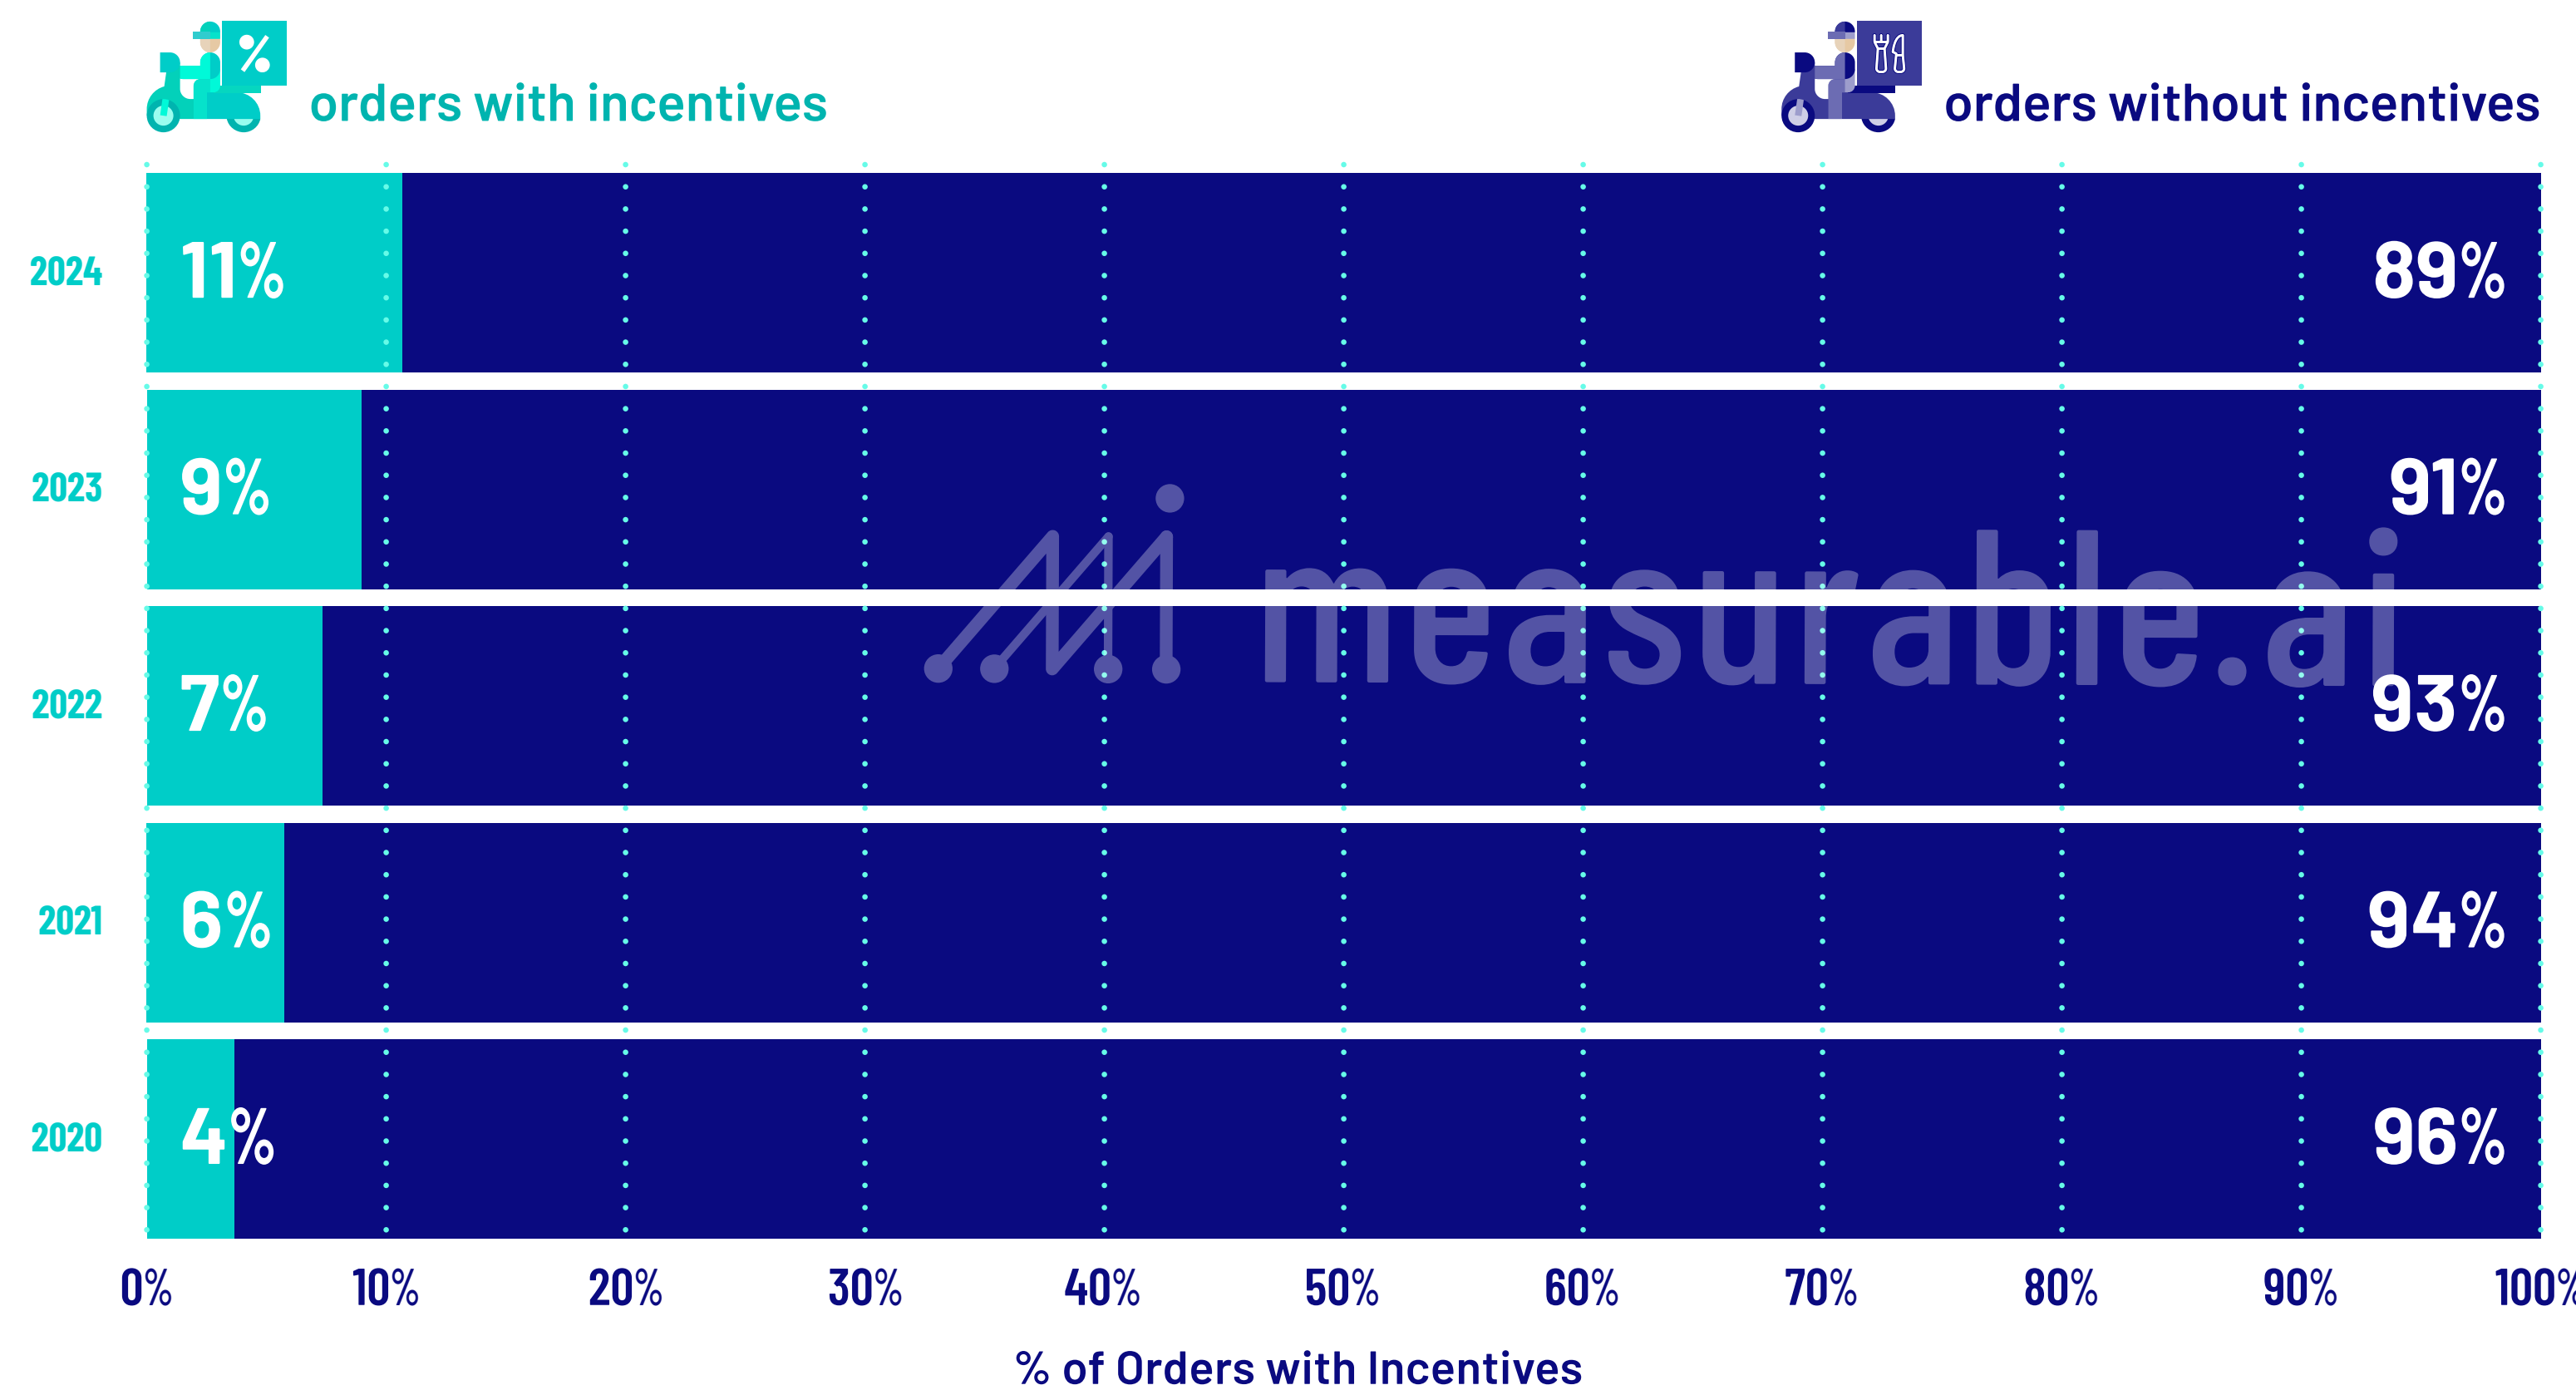

In United Arab Emirates, the share of orders with promotions and incentives gradually increased over the past five years from 2020 to 2024, with more players entering the market. As of the third quarter of 2024, the average incentive rate on online delivery orders in the UAE stands at around 23%.

Measurable AI: United Arab Emirates Online Food Delivery Incentive Trend *Incentive Trend = Estimated orders come with at least one type of promotions including coupons, credits, discounts, which is based on the orders captured in Measurable AI's unique consumer panel. Online delivery orders include both food and grocery deliveries. Data range 2020 January to 2024 October. Online delivery companies included in this chart: CareemNow, Deliveroo, Smiles, Talabat

QATAR ONLINE DELIVERY MARKET INCENTIVE TREND OVERVIEW

2020 2024

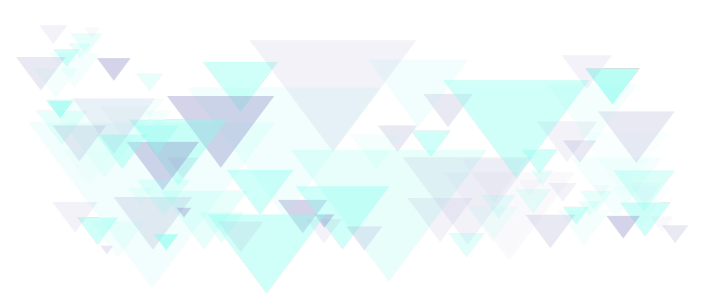

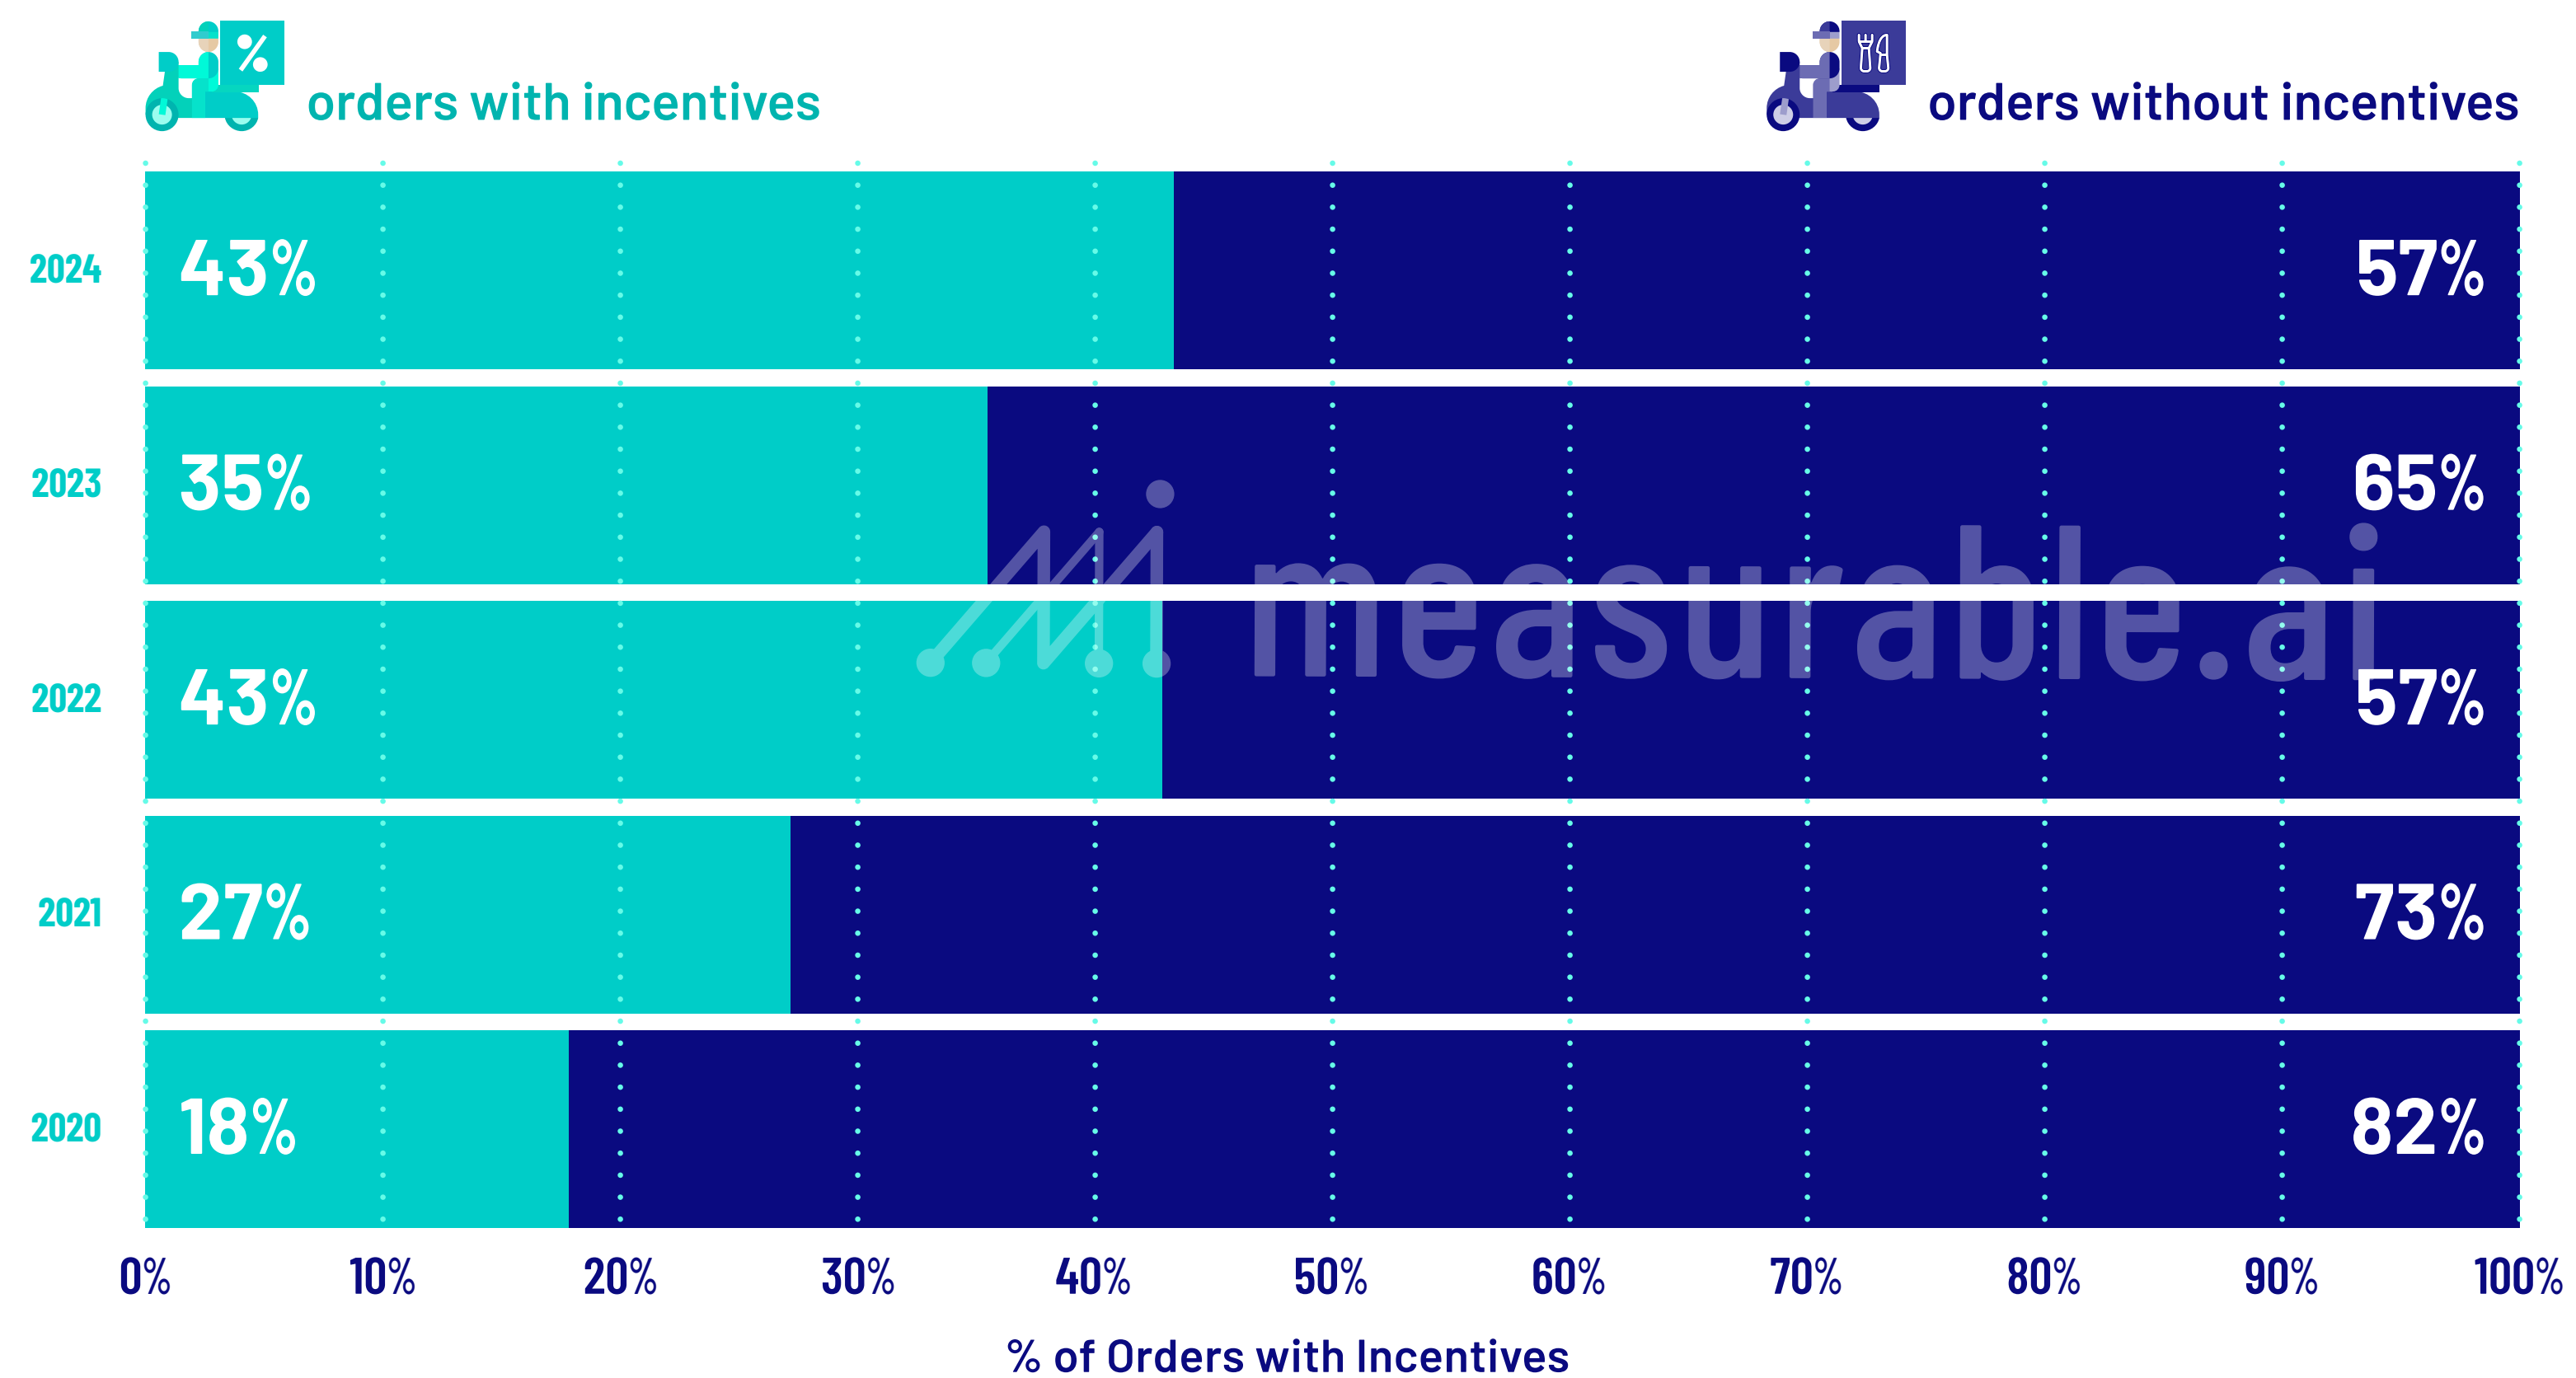

In Qatar, a similar trend has been observed with rising incentives in online delivery. Back in 2020, only about 4% of online delivery orders included incentives, but this figure has steadily increased to around 11% by the third quarter of 2024.

Measurable AI: Qatar Online Food Delivery Incentive Trend *Incentive Trend = Estimated orders come with at least one type of promotions including coupons, credits, discounts, which is based on the orders captured in Measurable AI's unique consumer panel. Data range 2020 January to 2024 October. Online delivery companies included in this chart: Deliveroo, Talabat

TURKEY ONLINE DELIVERY MARKET INCENTIVE TREND OVERVIEW

2020 2024

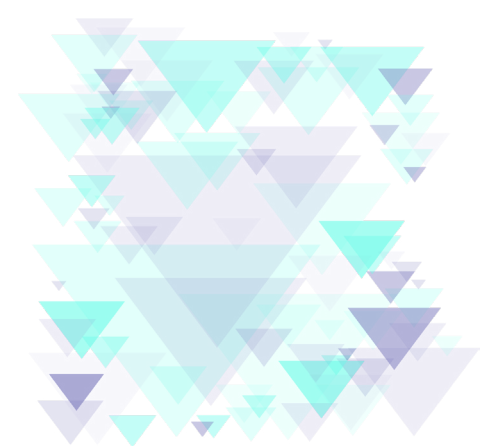

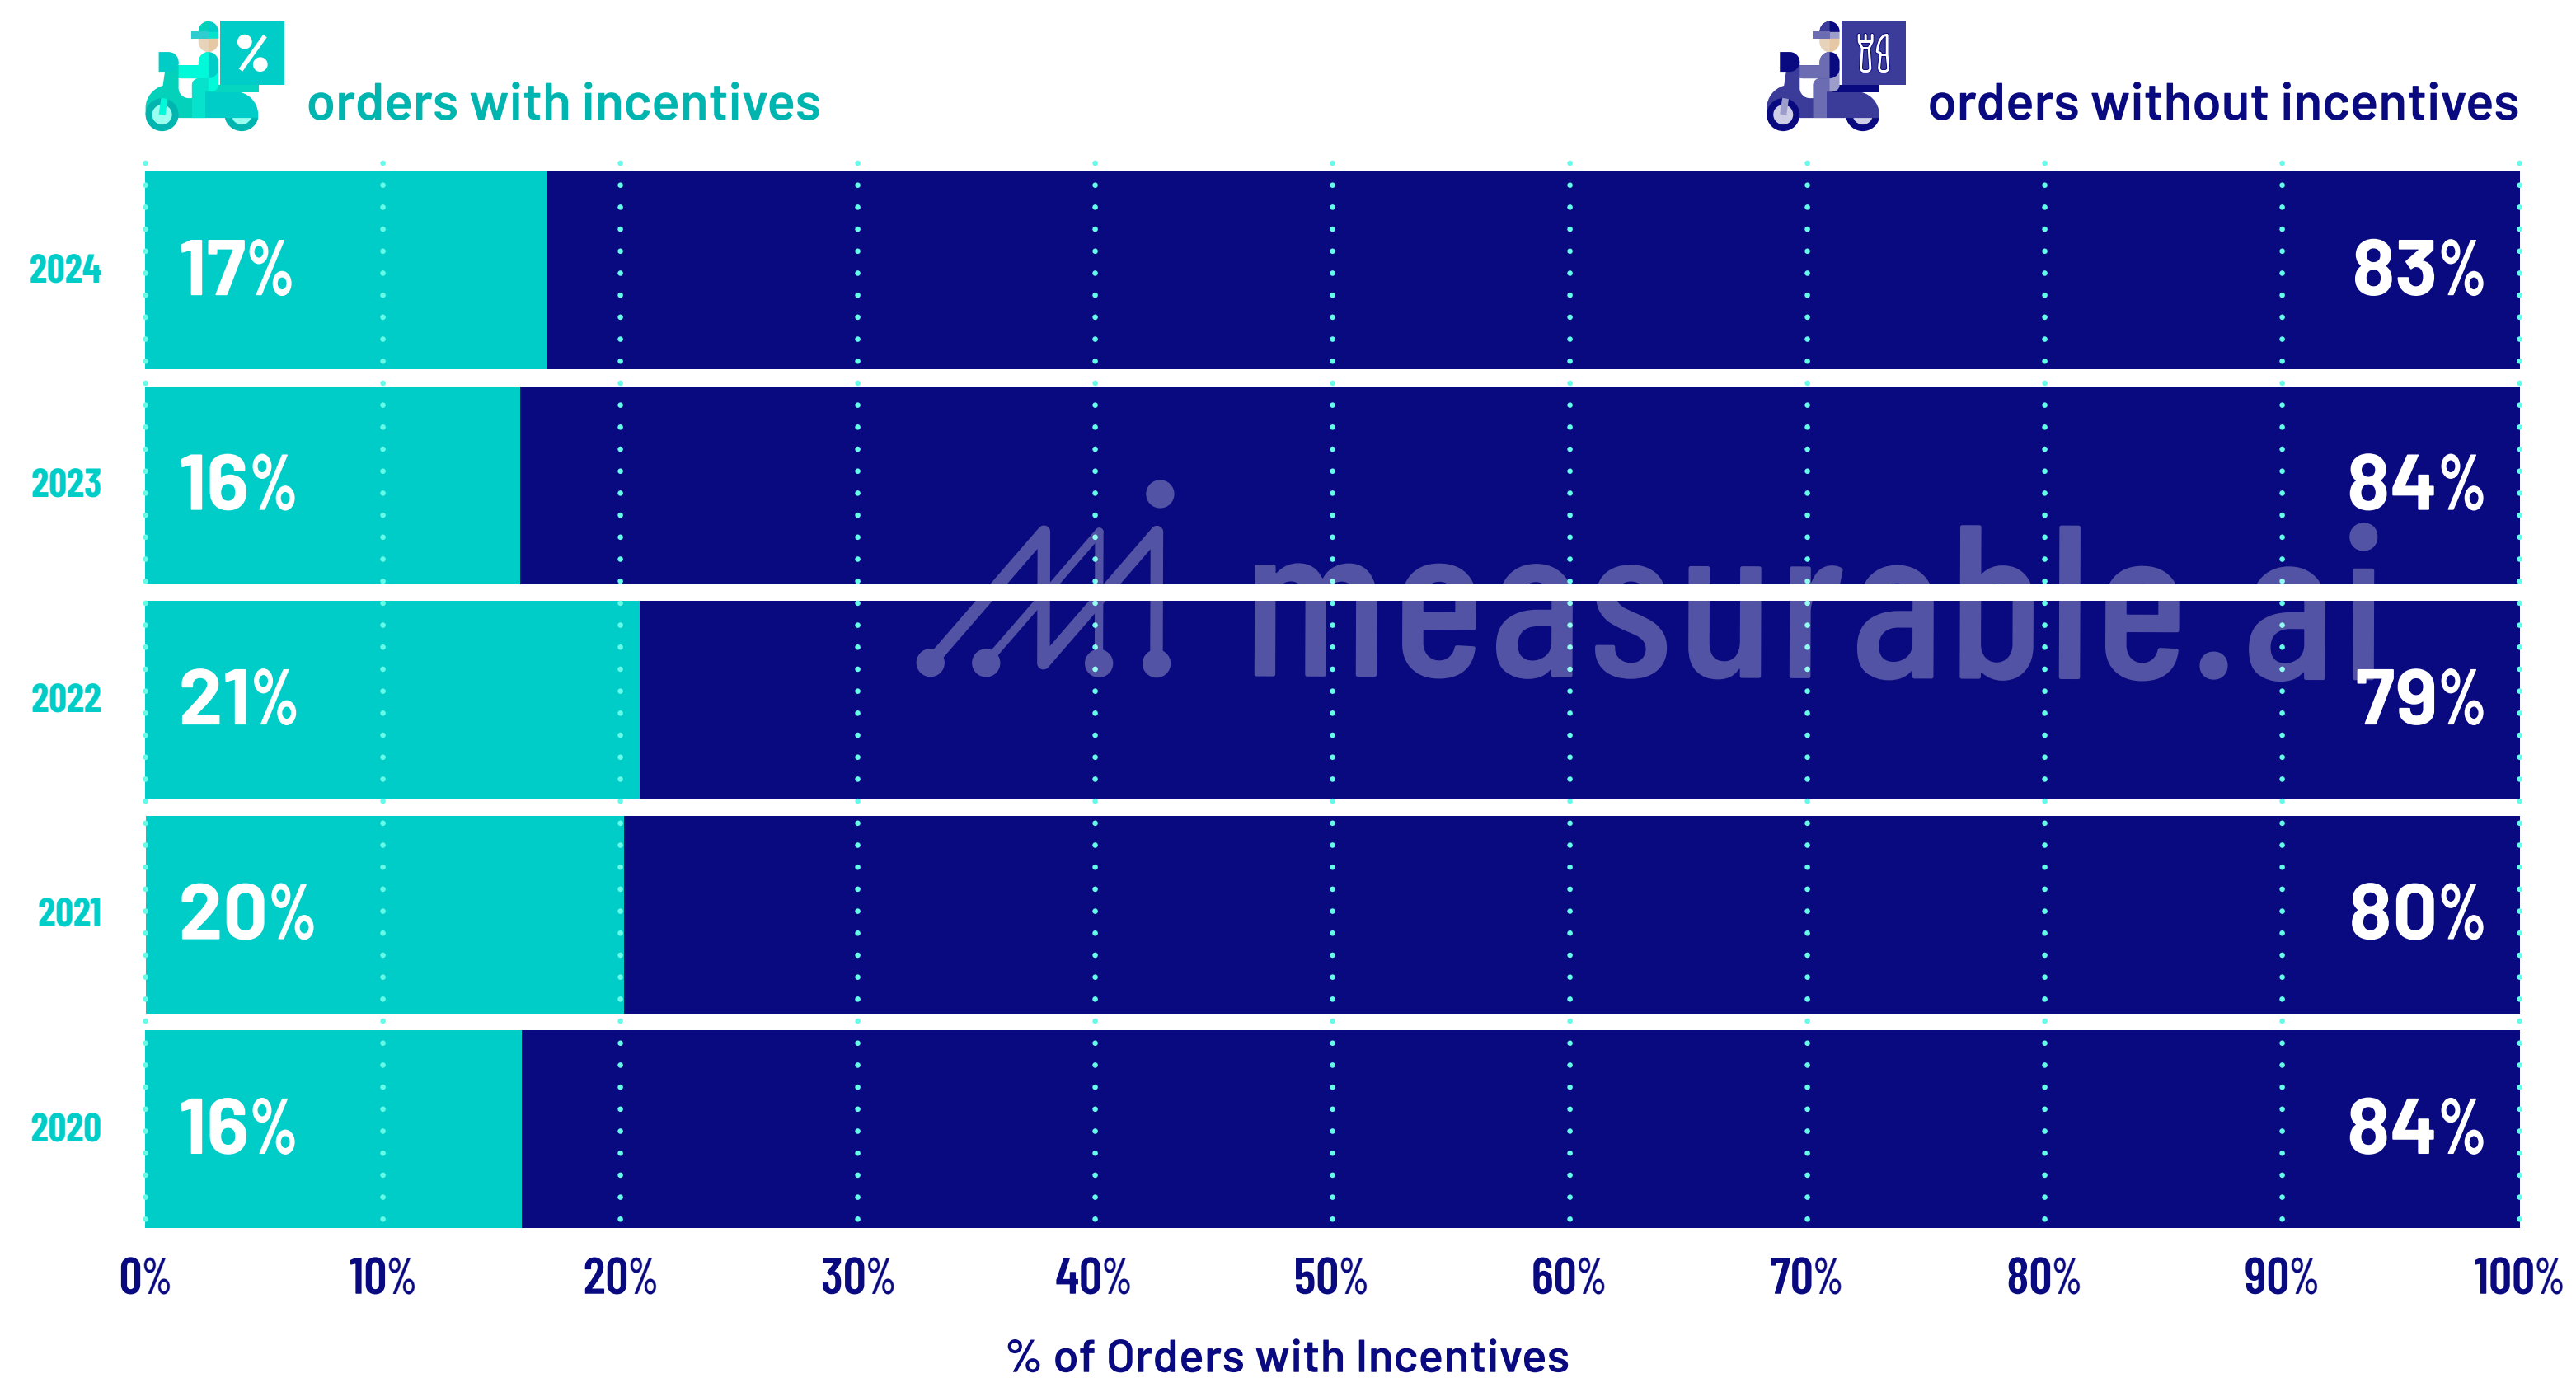

Turkey's online delivery market is relatively more incentive-driven compared to other Middle Eastern markets. In 2020, the incentive rate stood at around 18%. By 2022, this rate had significantly increased to approximately 43%, a level which has remained stable through to the third quarter of 2024, illustrating a marked shift towards more aggressive promotional strategies to attract customers.

Measurable AI: Turkey Online Food Delivery Incentive Trend *Incentive Trend = Estimated orders come with at least one type of promotions including coupons, credits, discounts, which is based on the orders captured in Measurable AI's unique consumer panel. Online delivery orders include both food and grocery deliveries. Data range 2020 January to 2024 October. Online delivery companies included in this chart: Yemeksepeti, Trendyol, Migros

EGYPT ONLINE DELIVERY MARKET INCENTIVE TREND OVERVIEW

2020 2024

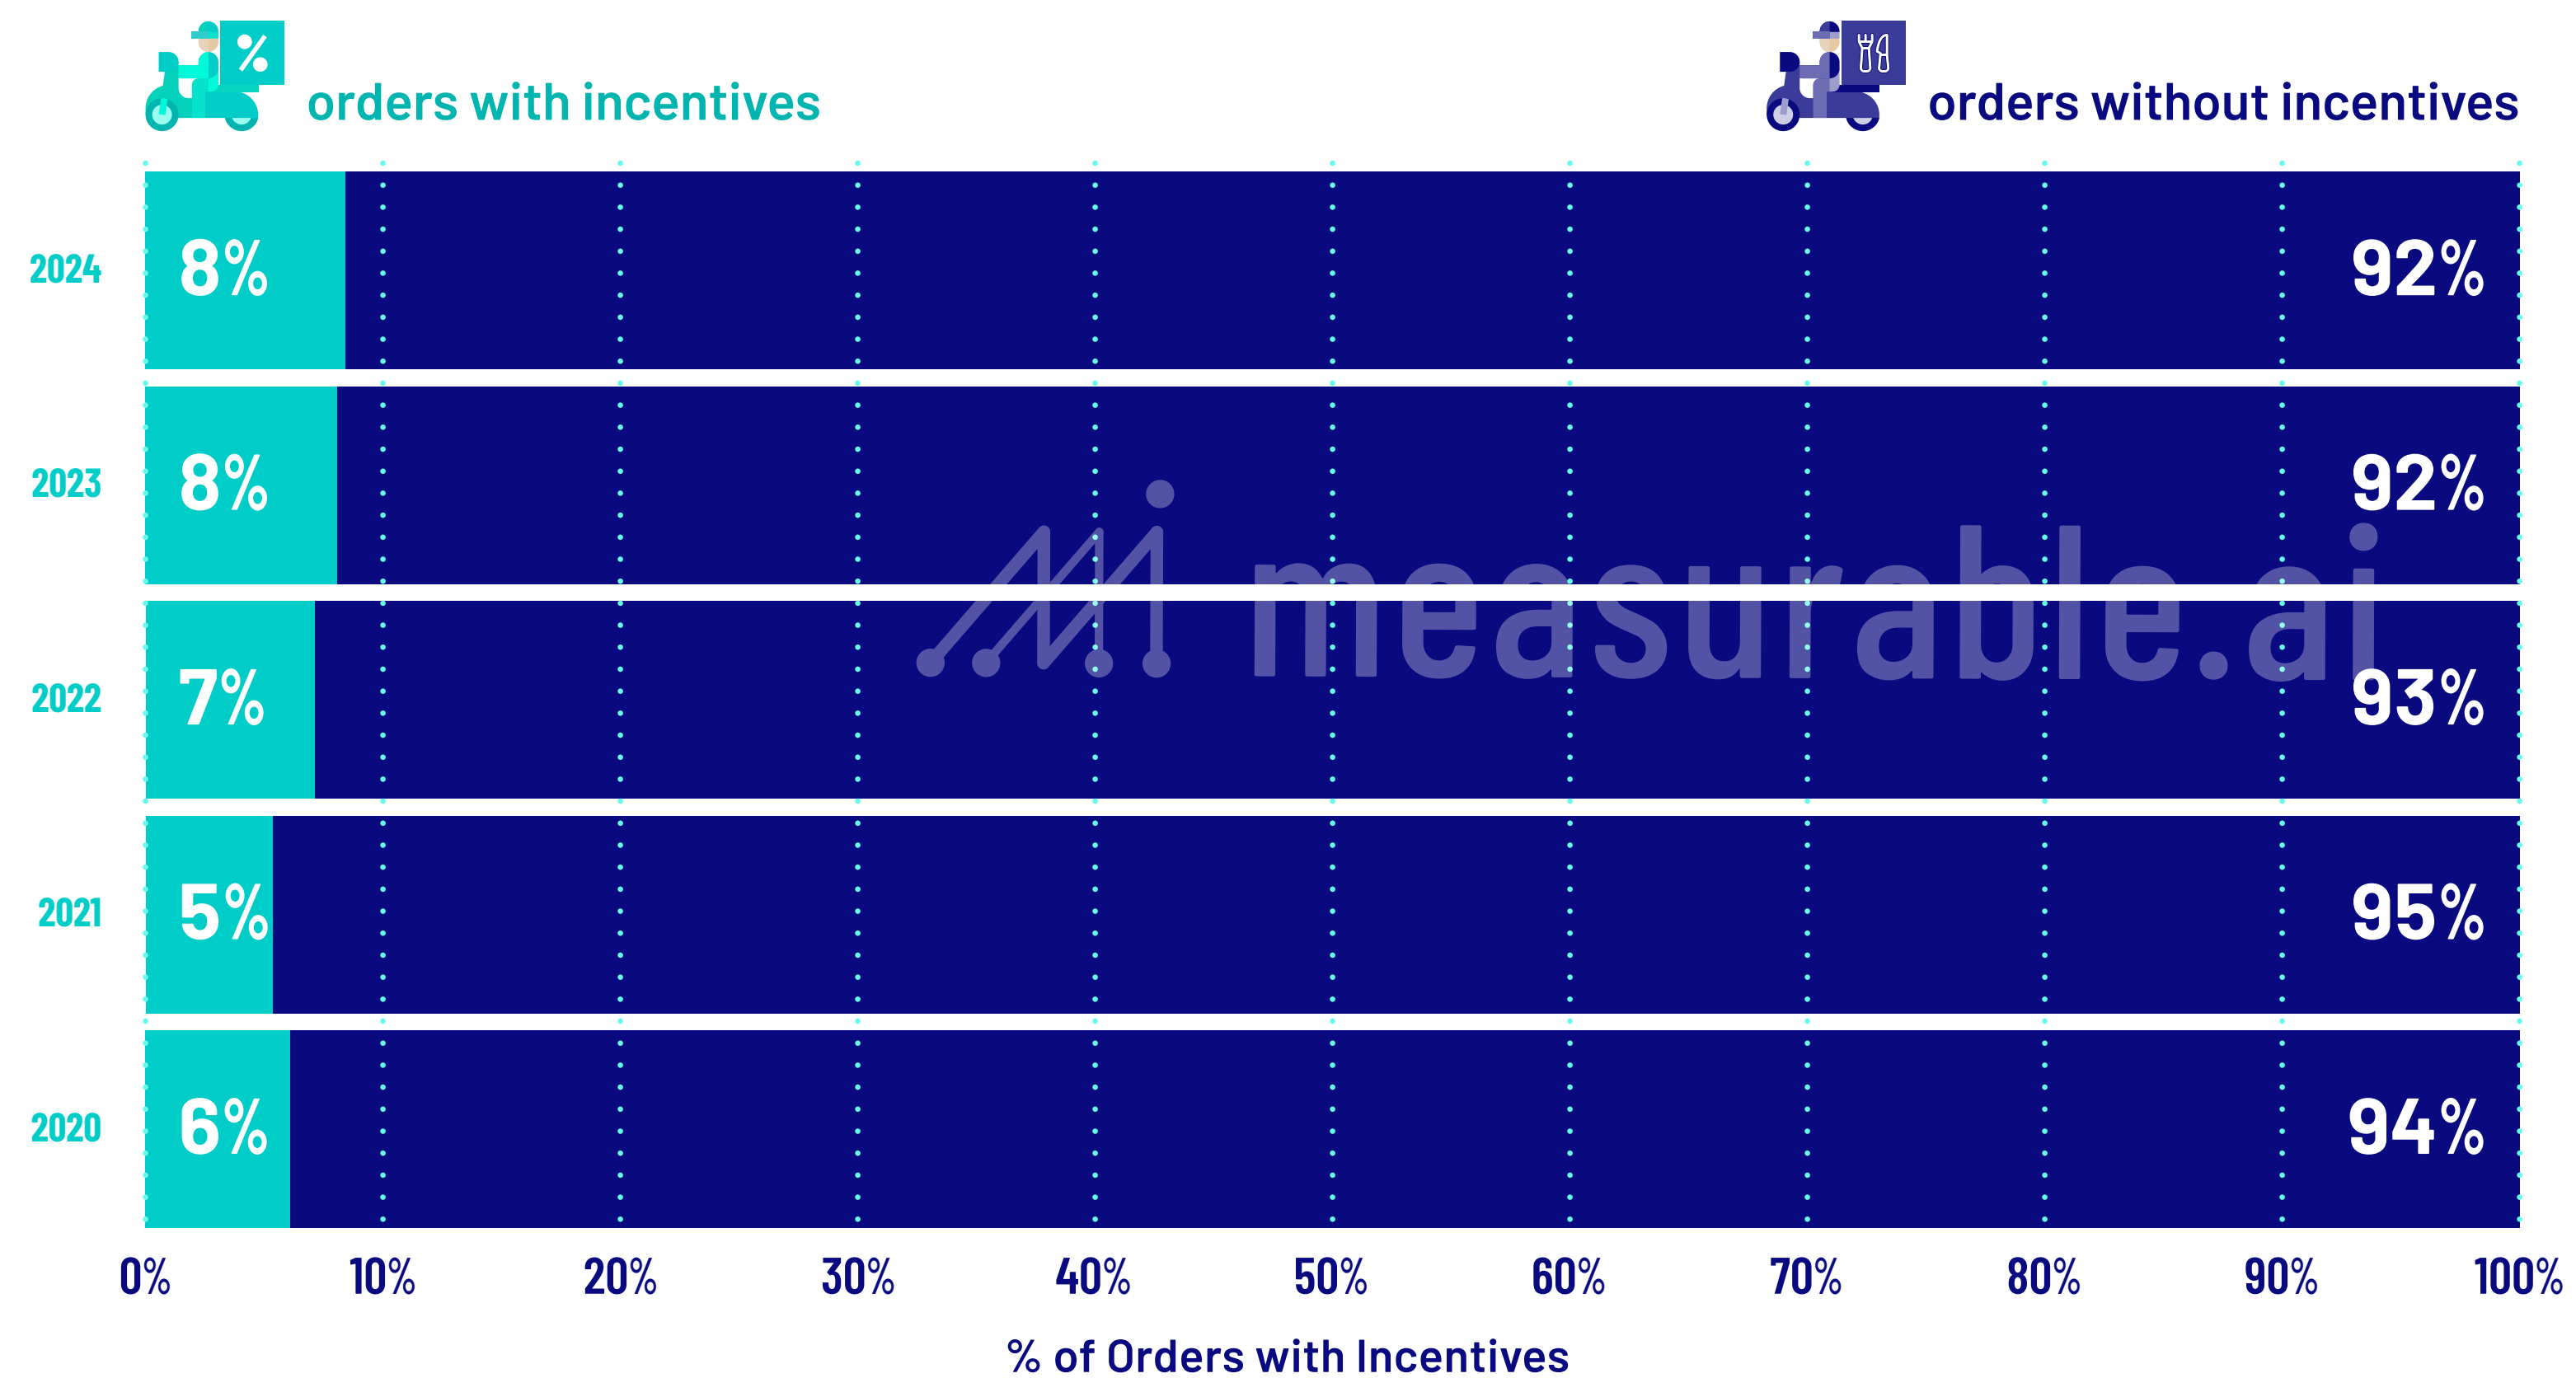

In Egypt, the incentive rate in the online delivery market has remained stable from 2020 to 2024, ranging between 16% to 21%. This positions Egypt's market at a medium level of incentives compared to other Middle Eastern markets.

Measurable AI: Egypt Online Food Delivery Incentive Trend *Incentive Trend = Estimated orders come with at least one type of promotions including coupons, credits, discounts, which is based on the orders captured in Measurable AI's unique consumer panel. Data range 2020 January to 2024 October. Online delivery companies included in this chart: Migros, Talabat

KUWAIT ONLINE DELIVERY MARKET INCENTIVE TREND OVERVIEW

2020 2024

In Kuwait, the incentive rate in the online delivery market remains relatively low, consistently hovering between 5% to 8%. This modest level of incentives correlates with the market's relatively high and stable Average Order Value over the years.

Measurable AI: Kuwait Online Food Delivery Incentive Trend *Incentive Trend = Estimated orders come with at least one type of promotions including coupons, credits, discounts, which is based on the orders captured in Measurable AI's unique consumer panel. Data range 2020 January to 2024 October. Online delivery companies included in this chart: Deliveroo, Talabat
